Brandi,
To a very
nice girl I
met this year
good good luck
with the one
you love.

Love,
Isabel
Reyes

Brandi,
Well, I hope it's been
a good year for you.
For me, it's been okay.
You a very nice person,
(if I was talking you'd
here a bit of sarcasm)
Just kidding! Good
luck with the big
guy. Nope we'll
party sometime.
F/F Janice

Brandi, stay cool!

THE END OF AN ERA . . .

Dr. Summers Retires

The 1984 SAGA is dedicated to Dr. Wesley K. Summers, superintendent of the Bryan Public Schools. In October of this school year Dr. Summers announced his retirement, ending a distinguished 32-year career in education as a teacher, counselor, assistant principal, director of instruction, and superintendent. Dr. Summers is characterized by his colleagues and associates as a man who:

"Knew the school business from the ground up . . . encouraged excellence . . . was sensitive to the needs of student, faculty, and community."

"Was a soft-spoken no-nonsense boss."

"Was a great communicator — always able to exchange ideas and opinions with all ages, all ethnic groups, and in any situation."

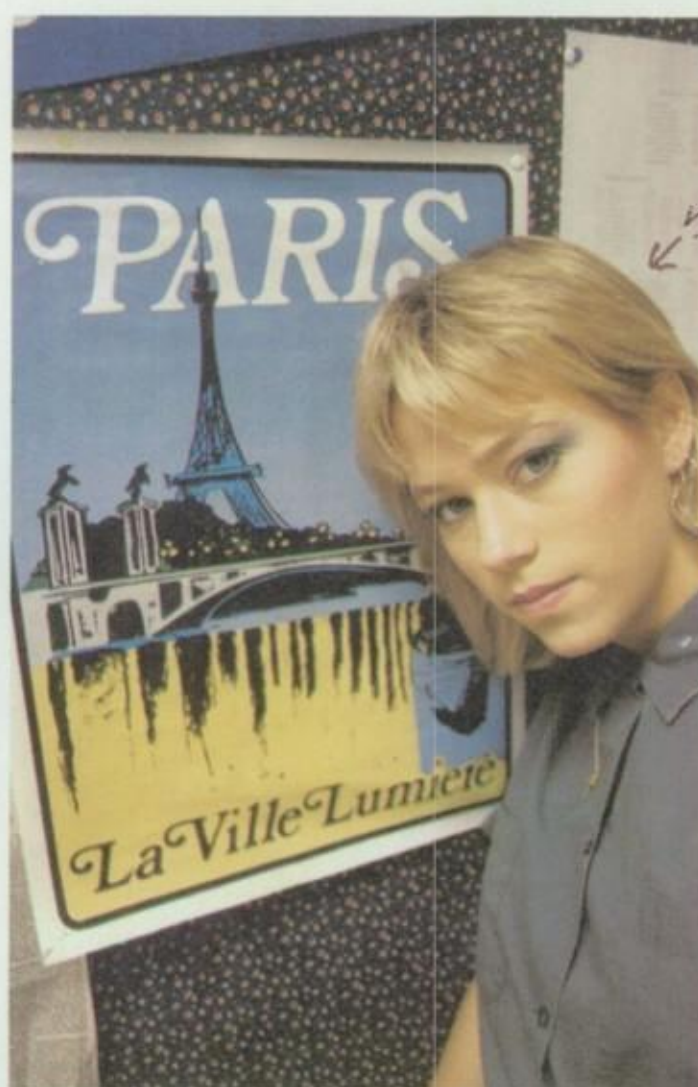

"Gave most of his life's work for the betterment of Bryan's school children . . . Bryan Independent School District will miss this good man."

GSL Gift

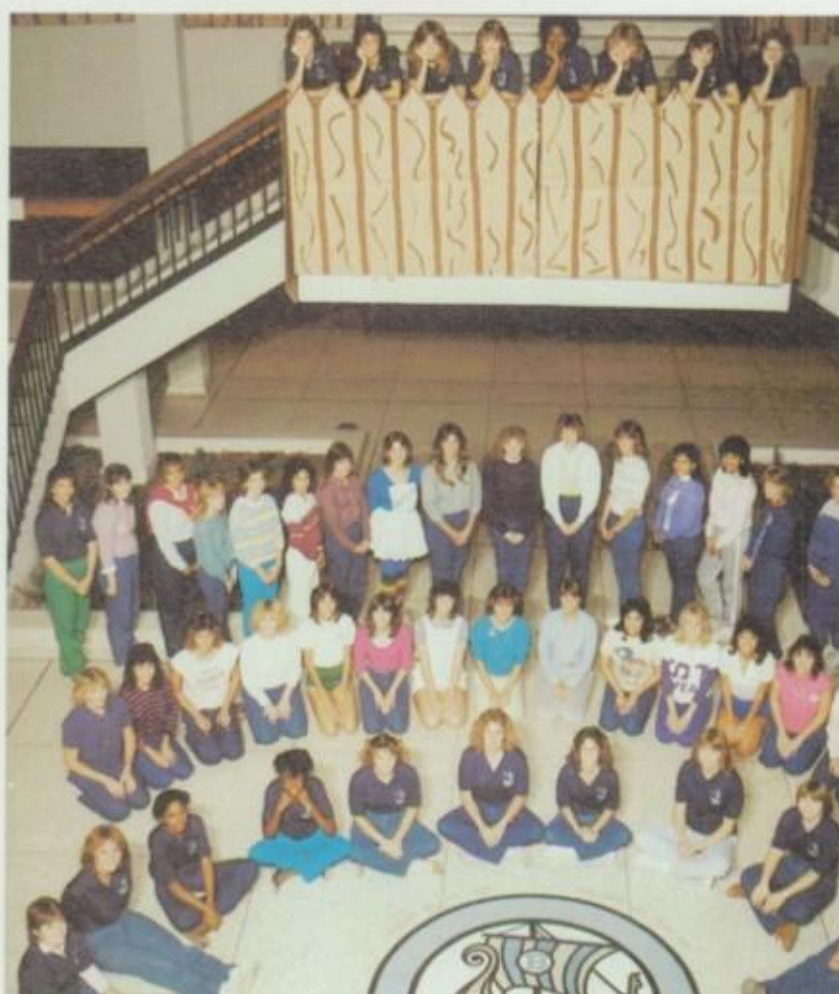

On Sunday September 25, 1983, the Good Sportsmanship League presented to the football team a new locker room door. On this door was hand painted a Viking. Beth Witthaus and Reisha Tucker were in charge of the event and Tina Ghoesl was the artist. Members of the team said they really appreciated the thoughtfulness of GSL to help build their spirit by giving them the unique door.

Our Community

Scenes from the past and present accent these pages of our yearbook emphasizing the perspective of change in our community. This section of the book is dedicated to the businesses and institutions without whose support the public schools could not function. Even as some of the new architecture suggests a greater closeness to our natural environment, there is also the increased danger of loss or warmth and character and friendliness from our contemporary urban lifestyle. Quality of lifestyle in a community is reflected among other ways by its architecture and its schools. Great challenges lie ahead for the community and schools as time slowly transforms itself into living memories.

In a spirit unique to the history of The United States, Andrew Carnegie left the bulk of his fortune to bring about "the advancement of knowledge and understanding among the people of the United States and of the British dominions and colonies." Our community is fortunate to have had governments who have committed themselves to upholding this principle.

Landmarks of the Past and the Future —

At the turn of the century, the LaSalle Hotel in downtown Bryan reigned as the prominent landmark of the community serving as a center of social, business, and cultural activities. The Ramada Inn Tower in College Station tops the community view in 1984 promising to usher in a metropolitan skyline to our community. Photographs of these and other community scenes in this section were taken by BHS yearbook photographer, Nathan David.

Because You Need To Know...

Students of today need more than an everyday textbook. They need the source of information and opinions that shape our society. They need the most versatile & up-to-date textbook available on a daily basis: The B/CS Eagle. Through daily classroom use of the Eagle, students will be provided with a variety of information about everyday life. Our goal for newspaper in education is to help students of today bridge the gap between classroom ideals & the reality of living.

To me football is a source of satisfaction. Football is a lot of hard work and to have success in it you have to be dedicated. Football to me is also a way to learn many valuable aspects in life.

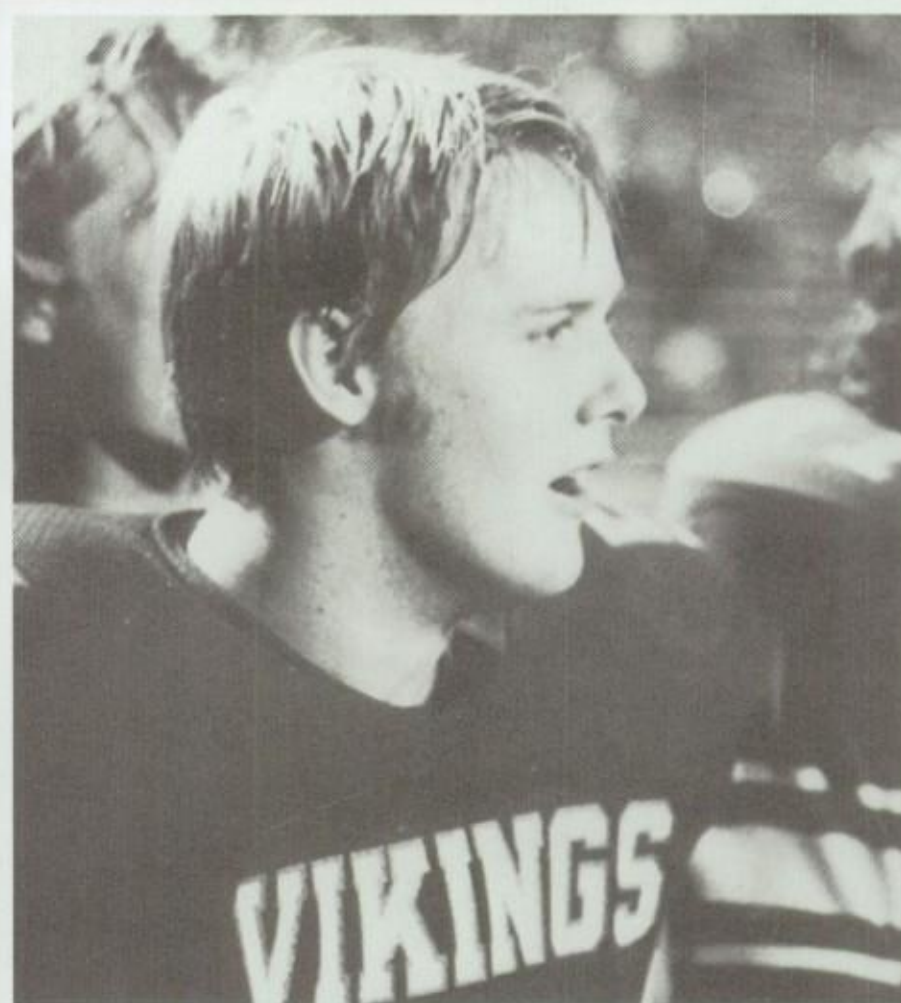

#52 Darrell Jones

Playing football for Bryan High this year has meant a lot to me, it let me know what I could do. When I quit my sophomore year that's when I figured out how much football really meant to me, because that's a special feeling, the feeling of knowing that you're doing something that a lot of people could not do.

#75 Mike Mathis

I feel that football is a great experience to help better a person for his life after high school. It teaches one discipline and self-respect. Football is also just like life, it has many disappointments. Football teaches one to work with one another and this is an essential part of success.

#17 David Lunsford

The one thing that I will remember the most from High School will probably be playing football, has given me the opportunity to become close many special people. Football has enabled me accept many challenges and I am a stronger individual, because of it.

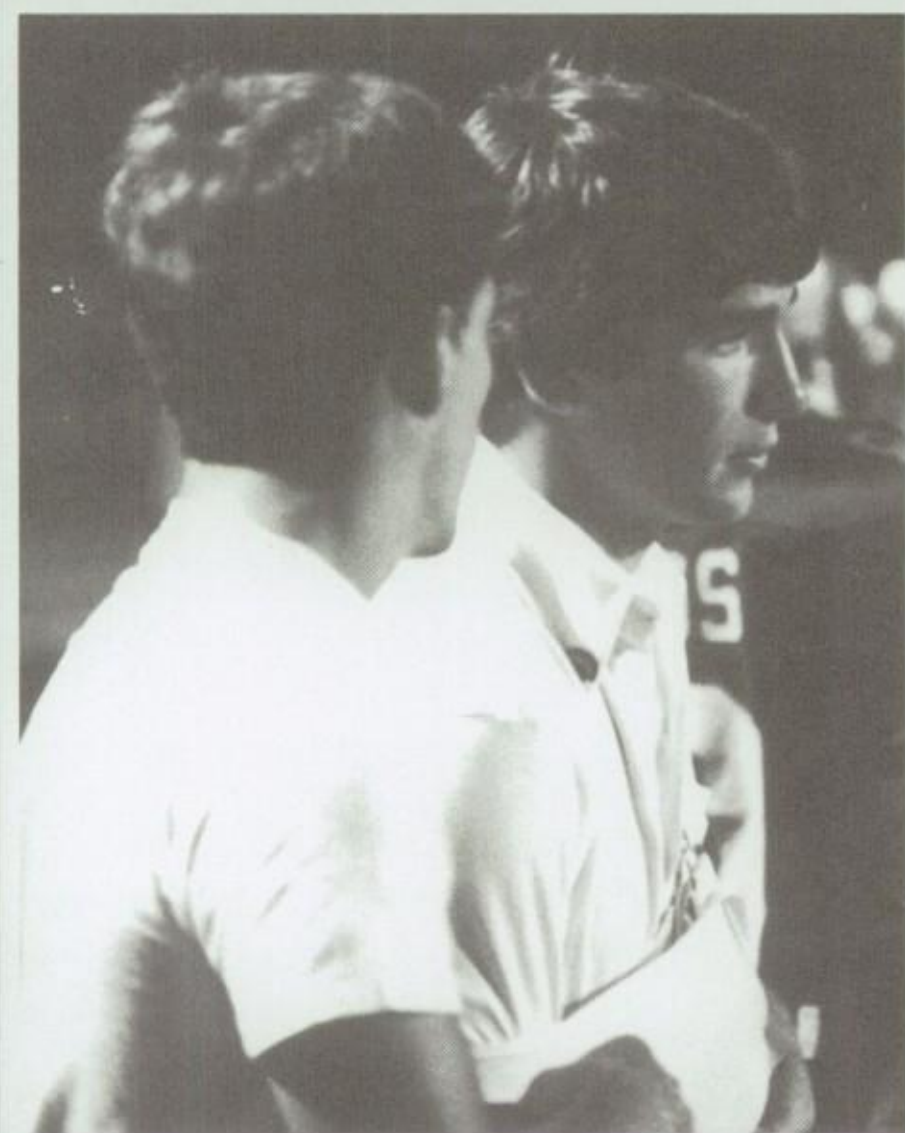

#18 Bill Walker

I have enjoyed playing football for Bryan High School, despite breaking my collar bone my junior year and reinjuring it my senior year. God has pulled me through the off-season program and all the work I've done in the summer especially through hard times when I've wanted to throw in the towel and quit. I've learned many valuable lessons that I will never forget for the rest of my life from playing football at Bryan High.

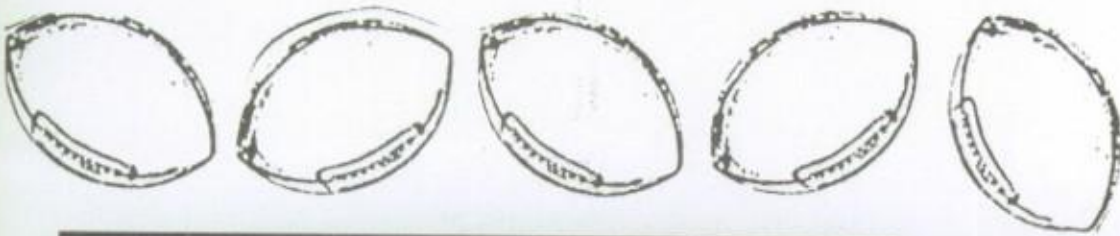

#31 Charlie McMan

Football means to me what singing and dancing means to Michael Jackson. I really love to compete and participate in the sport. Playing football for the Bryan Vikings has been a very enjoyable experience for me and the coaching staff was excellent in getting this year's team ready, despite all the seniors we lost the past year. It's been great.

Merrill Green, Athletic Director and Head Football Coach at Bryan High School, is a graduate of the University of Oklahoma, having played on the 1950 National Championship football team, coached by Bud Wilkinson. Coach Green began his coaching career on the college level at Wichita State University.

In 1956, Green moved to the high school ranks as head coach at Cooper High School in Abilene. In 1972, he moved on to Bryan. With Coach Green, we have a total of 149 wins, 47 losses and 7 ties.

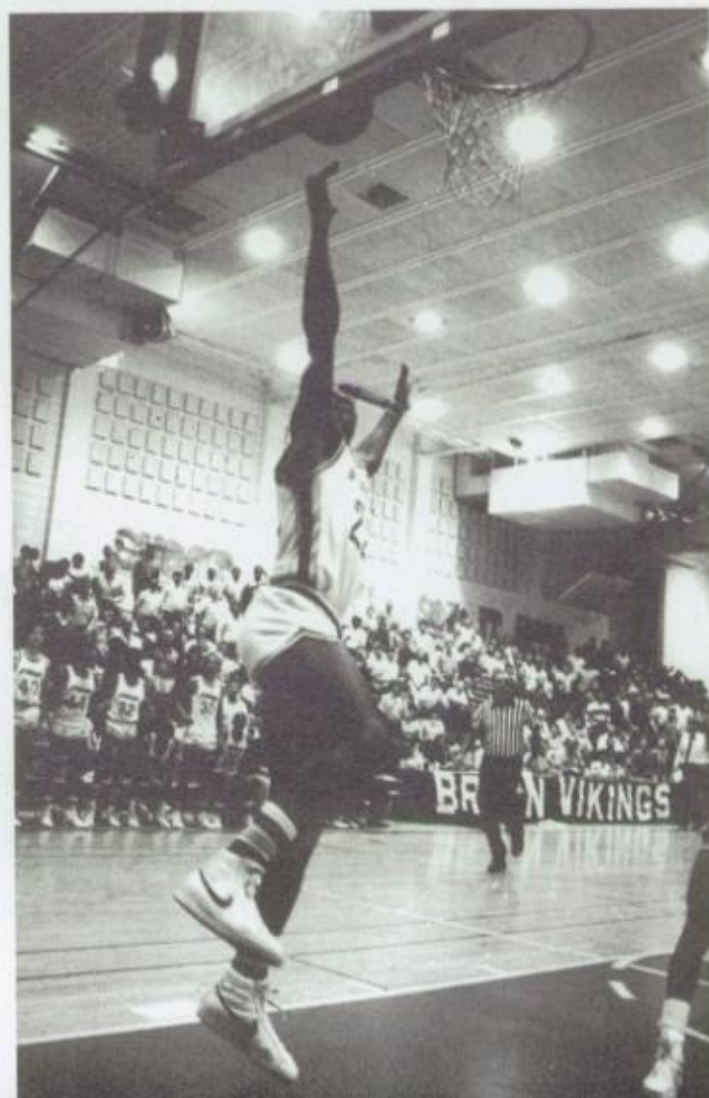

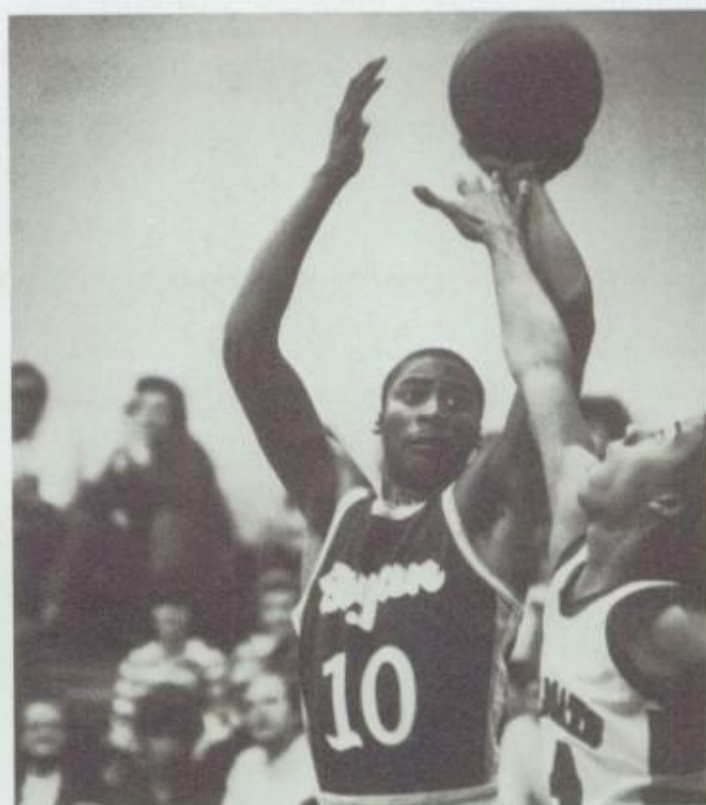

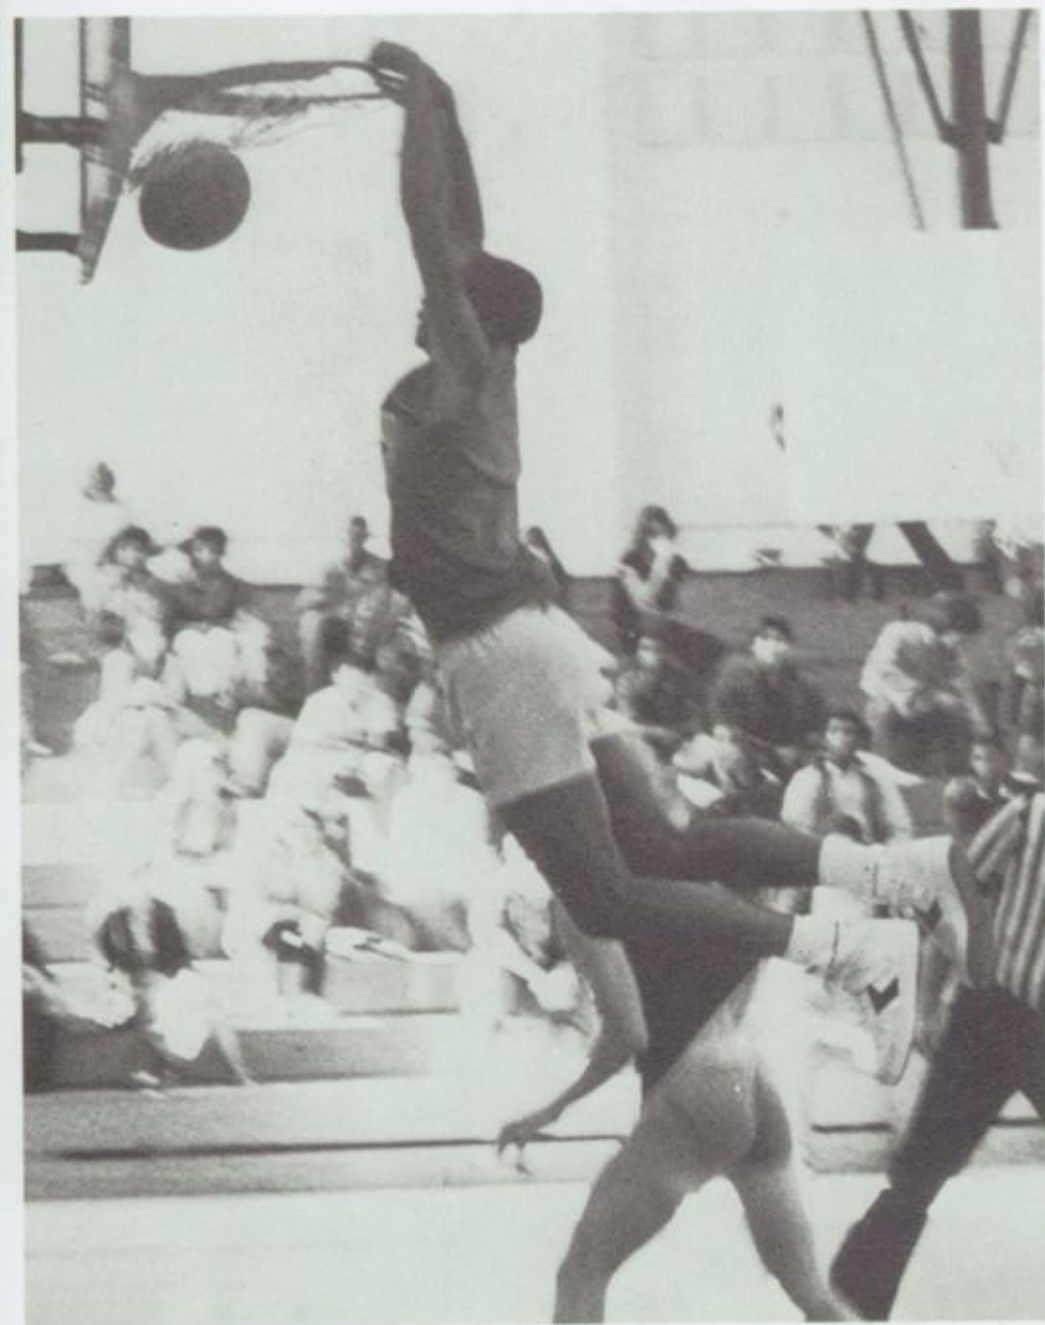

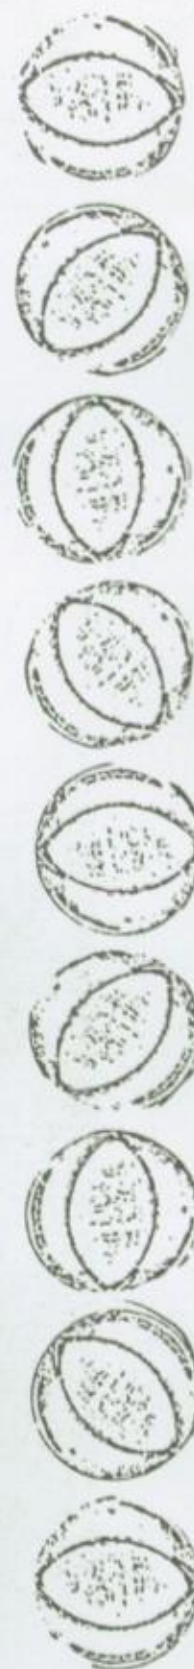

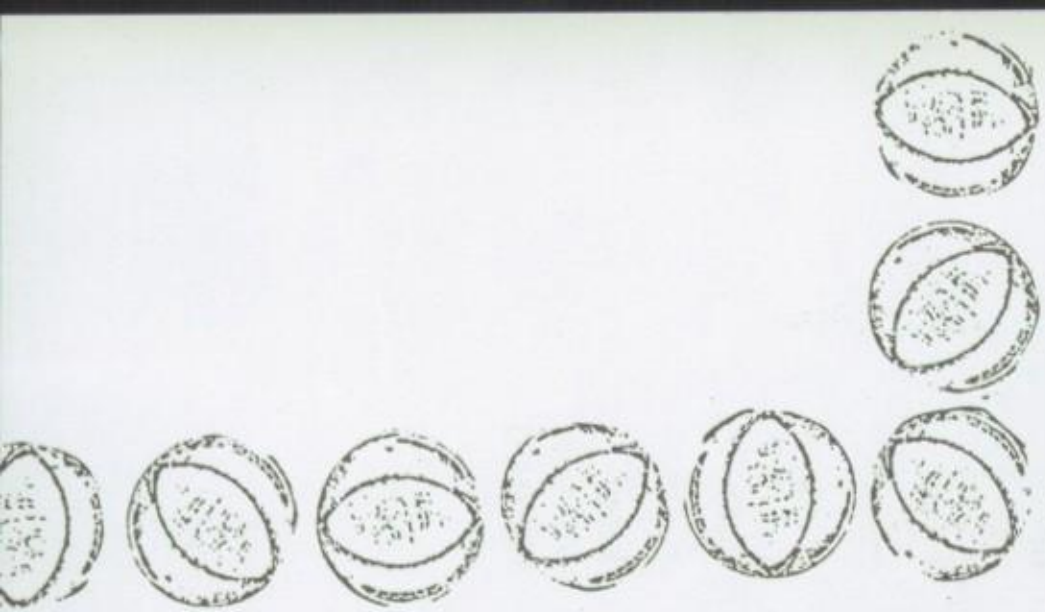

Coach Green has been pleased in the increase in participation and hopes it will keep increasing. He is also proud of all athletes, because he has received many compliments on their behavior. All sports have excelled. Coach Green said we are "winning more than our share and that's a reflection on coaches and athletes."

Coach Green is expecting changes in all sports because of new state programs and policies involving academics. Traveling will be another factor affected. He also anticipates a stronger football team. "This past year has been my most rewarding as head coach. We did not have much experience. Although we didn't win a lot, we were in the thick of every game to the very end."

Overcoming All Odds

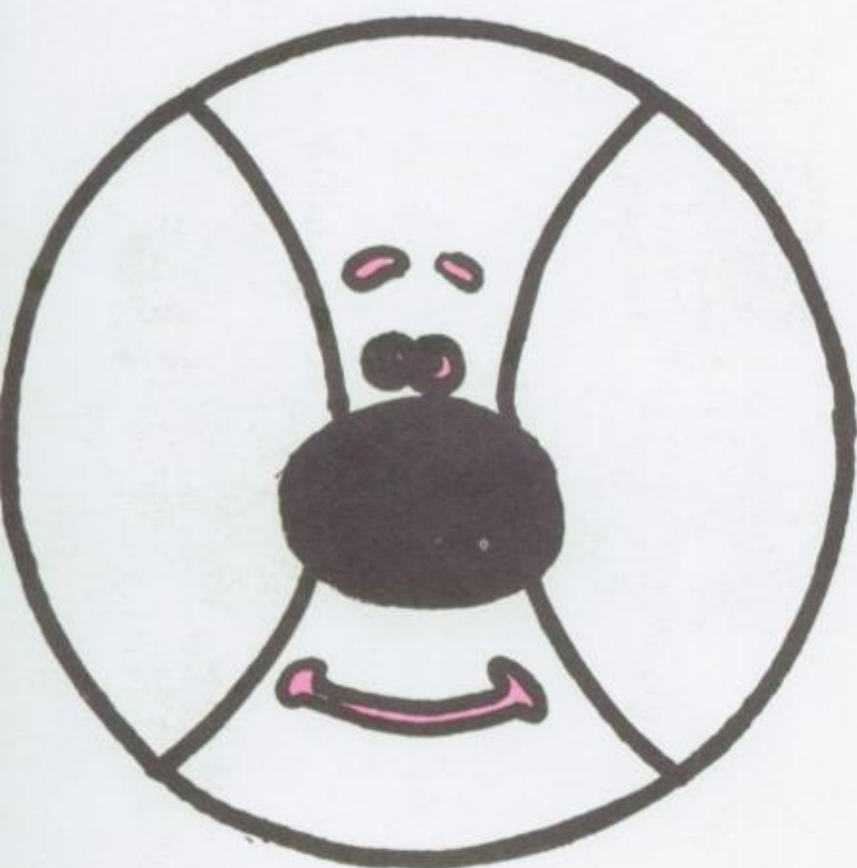

In mid-season, the Vikings were set back by my unfortunate forfeits of two of their district wins. It was an occurrence that seemed catastrophic to our season at that time. I remember vividly the team's feelings during this time. We had just beaten Killeen at their gym in overtime, leaving them at 6-1 and giving us a 7-1 edge. That next practice we were flying high in knowing how hard we had worked and realizing our chances to be rewarded for our efforts with another district championship. Then as quickly as it came, it seemed to be taken away from us. Coach Brown pulled us off the practice floor, and in the privacy of our locker room, explained everything to us. The room was deathly quiet as all eleven of us sat in disbelief. One must experience all the long hours of practice and extremely hard work of endless drills and the perfecting of the team as a unit, to understand the unfairness we all felt. Then our spirits lifted as Coach Brown continued. He reminded us of all the things we had already overcome and the need for us to come together, especially during this time, by saying if we trusted in the Lord, things would work out for the better. As it turned out, we tied for first place, which had seemed impossible at that time. I feel this just typifies the spirit of Bryan High School as a whole. "Fighting with the fiercest pride" to overcome all obstacles no matter how great they may seem.

Brandi,

You are the sweetest girl I've met
this year! I'm glad I am going with
you just don't get too mad at me
for going to horse races and to horse
shows because that's what I like. Maybe
someday when your parents get to know
me you can go with me! And believe
me you will **Honors** get hooked on
it to. I'm sorry if I don't spend enough
time with you **Awards** but I've got
to get my money made before I graduate.
I will always **and** have time for you.
Whenever I'm not with you just think of
me thinking of you! It was a
Superlatives
great year and I had a lot of fun, it
could be better though. I hope we have
a great summer together!

French club members enjoyed the Christmas party held at Mrs. Lampo's house. Mr. Oliver Naudeau, native of France and father of Eric, related aspects of Christmas in France including putting out shoes instead of stockings, similarities of climate of the United States and France, and midnight mass followed with a big meal. Later in the evening the club went caroling, singing in French of course,

Preparing for the World

French Club has widened the horizons of many students before and after Bryan High was built. To be in the French Club a student must have one year of French or be in the French Class. During the Christmas season, club members collected money and canned goods for Good-will. Events during the year included a Christmas party, a trip to Six Flags, a French play in Houston followed by dinner at a French restaurant, and a foreign language festival.

Vocational Industrial Clubs of America, VICA, is the foundation organization for Cosmetology and the Industrial Cooperative Training Club, ICT. The main goal of VICA is to help members prepare for the future through job experience, social activities, club meetings, and competitions.

ICT is a cooperative training program designed to help students learn a trade in an industrial work setting by combining a half-day of work with a half-day of required classwork.

Club Facts and History

Future Homemakers of America is an established national organization for both males and females. Recently the name was changed to include the Home Economic Related Occupation group, (HERO). Within this last decade FHA/HERO membership has tremendously increased within its male membership. Of the eight purposes of the group, two of the more important ones are to become aware of the multiple roles of men and women in today's society as well as to provide opportunities for decision-making and for assuming responsibility.

Red and white are the colors of the organization and the red rose is the symbolic flower. Through the years the organization has taken part in many of the school-wide activities such as the campus-wide clean-up project, the macho-man contest, and Homecoming Queen nomination. Other activities include a basket for the needy during Thanksgiving, a float in the Christmas parade, fundraising activities and schedules activities during the National FHA/HERO week.

The officers for the 1983-84 school year include: Pres. — Debbie Cuellar, 1st V.-Pres. — Sissy Pham, 2nd V.-Pres. — Paula Norwood, 3rd V.-Pres. — Carol Childers, 4th V.-Pres. — Theresa Lawson, Sec. — Kay Hobson. The group is under supervision of the Homemaking teachers Kay Conerly, Elizabeth Richardson, Linda Winter, and Nina Wright.

Norseman, translated from the Scandinavian language literally means Viking Warrior.

Mrs. Sandi Farris is the sponsor of the group during her first year at Bryan. This year more stress is being put on news of student activities. The Eight member staff works hard to put together a monthly newspaper in about two weeks. It is then sent to the Bryan Eagle for Publishing. The Norseman kept students well-informed on issues and events at BHS.

Fellowship of Christian Athletes

Members: Cindy Schiller, Julie Seibert, Michelle Graham, Andy Hough, Anna Del Valle, and Charles Scherbel — Sponsor.

"The Fellowship of Christian Athletes has had a fantastic year," says Charlie McMath, President. "In the fall we had a Thanksgiving dinner to honor the parents of all the FCA members. It went real well. In the winter we had our annual hayride, and everyone had a blast. The annual FCA summer camp will be in June. This is where we send the members to camp by running the concession stands at the Viking relays. We meet almost every Monday night at different people's houses and gave different types of programs such as Bible studies, guest speakers, or films. Our main goal in FCA is to grow in our Christian faith or to bring others to Christ. The FCA summer camp after my sophomore year changed my life completely. It is my prayer, as well as the other officers, that other lives will be won over to Jesus Christ this summer, because we started building towards summer camp way back in the fall."

Rafting, Canoeing, Camping, and Photographic Society

Cyndi Schiller, Ana DelValle, Julie Seibert, Andy Hough, Charles Scherbel, Michelle Graham.

The purpose of the club is to promote outdoor adventures as a worthwhile, creative endeavor for the individual, and provide a higher quality of student life through these experiences.

Officers are President — Andy Hough, Vice-President — Julie Seibert, Secretary — Cyndi Schiller, Photographer — Michelle Graham, and Treasurer — Ana Del Valle.

Activities for this year included a fall campout at Lake Conroe, a winter campout and canoe trip at Lake Livingston, canoeing on the Guadalupe in the spring, and a summer rafting trip on the Arkansas River in Colorado.

Officers: Reisha Tucker, Beth Witthaus, Lynn Seely, Gwen Phoenix, Candice Moore — Sponsor, Glenda West, Carol Childers, Leslie Greenwood.

GSL helps to brighten sports season

GSL helped to brighten the 1983 football season. Each player had two or three secret pals. For each game week these secret pals would make gifts, such as: cookies, candy, and popcorn. To end the football season, GSL members had a scrapbook party for all the players.

Valkyries

Valkyrie members top to bottom are: Evie Cason, Melissa Craycraft, Lorna Sewell, Leslie Mason, Ulanda Stockton, Tonya Young, Mae Davis, Cindy Schill, Ra Nee Martin, Sponsor — Janet Brown, Stacie Potts, Nilda Bryand, Donna Patranella, Lisa Franklin, Rhonda Nichols, Sherry Bomnskie, Alene Meeks, Kristi Slaven, Marzetta Jones, Sandra Dombart, Anja Smura, Cindy Jennings, Elaine Miranda, Rosemary Garcia, Felicia Castro, Margaret Mandano, Christi Sanson, Carolyn Steel, Shea Pratt, Mary Briggs, Felicia Segal, Carleta Reed, Nora Carrillo, Kaylah White, Carolyn Walker, Angela Sander, Paula Wade, Leah Yandell, Isabel Reyes, Bridgette Sandle, Veronica Baca.

During football season, the Valkyries are a busy part of Bryan High. The pep squad's purpose is to promote school spirit and back Bryan's athletic teams throughout the year. Training begins early in the summer when officers instruct and teach routines they learned at camp and others that will be performed during the upcoming season. Carwashes are big fund raisers that take place during the summer.

The Valkyries perform at several pep rallies and do hand routines in the stands at football games. Traditional ripple lines are formed before the games and at halftime. The Valkyries also perform on the field at Homecoming and sponsor the dance after the game. Later in the fall, the Valkyries attend home basketball games and perform at one of them. The Valkyries continue to cheer the Vikings on to victory in the spring sports of soccer, track and baseball.

In January, the junior members begin making plans for the annual Valkyrie banquet in March. This is the time when special guests are invited and the past year is reflected upon. Events, happenings and special moments are remembered. Both gag and real awards are presented.

Towards the end of the year, preparations for the following year are made. New officers are elected through a series of try-outs. The new officers begin making plans immediately for a successful new year.

Despite their self-styled outlaw image, the Vike Squad again turned in an outstanding effort at supporting BHS during the 83-84 school year including backing the athletic teams, cleaning the gym after pep rallies, and escorting cheerleaders.

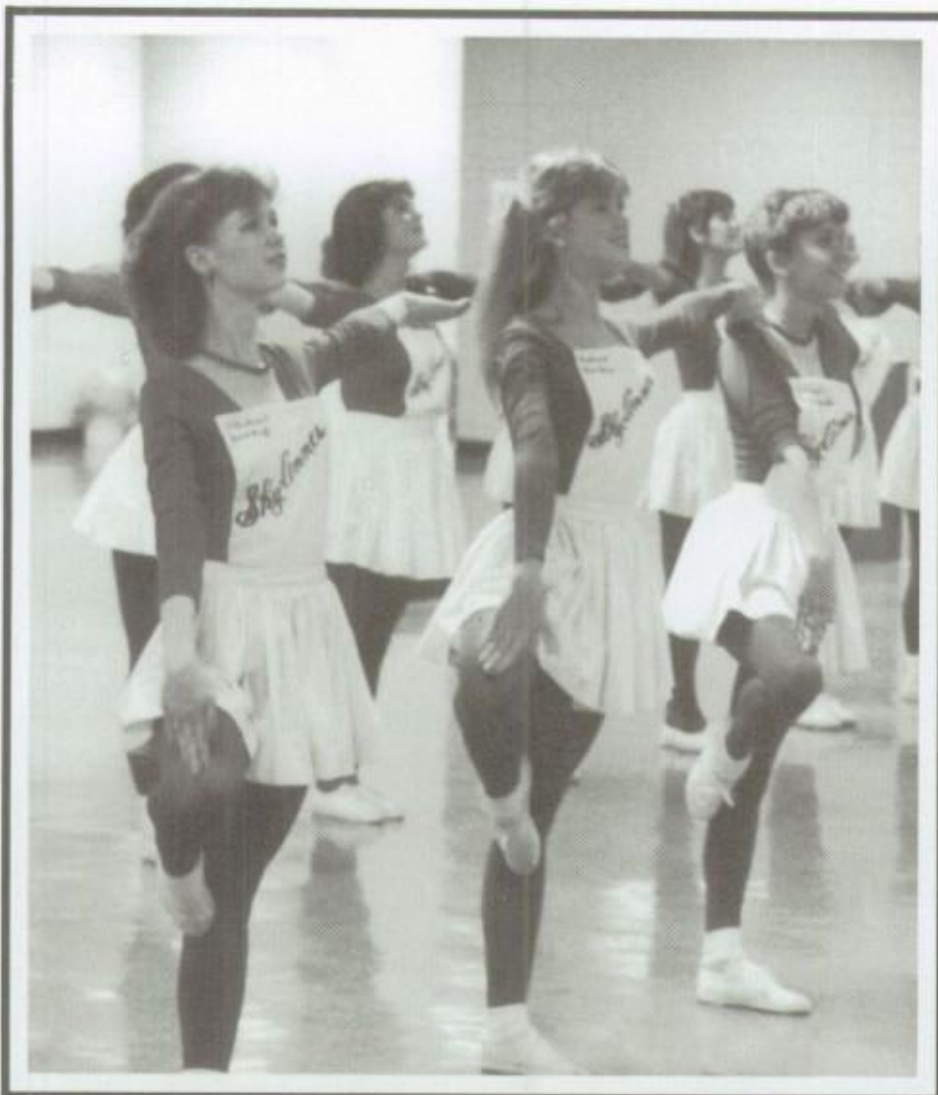

Award winning drill team still kicking

The Shy-Annes originated in 1968, during the time that Stephen F. Austin was the high school. During the sixteen years of their existence the ShyAnnes have been through several sponsors. In 1981 the sponsorship was taken over by Mrs. Mary Selcer, a math teacher. At this time many changes took place, some more drastic than others. One of the quickest changes was that of establishing professional judges for each young lady who wished to become a Shy-Anne. One of the other changes and the most noticeable took place during their June clinic under the instruction of Ms. Cathy Wheat. Ms. Wheat taught the girls new methods of stretching to prepare them for high kicks during routines. Wheat also taught them two new routines using a new style of dance which changed the Shy-Annes style from military to one with movements which flowed more smoothly. This year Mrs. Dolan, a biology teacher, took over the responsibility of the Shy-Annes. She has brought them through the same high quality performances that the Bryan audience is accustomed to.

Janet Huff, Lisa Beene, and Sondra Smith practice every day to get it just right.

To top off a pep rally routine Dolores Palomares shows us a perfect move.

The ShyAnnes were attired this year in all new uniforms donated to them. At camp this summer, the outstanding girls were awarded ribbons and then were evaluated for nominations to Who's Who and All-American Drill Team. A committee then picked those girls to receive these honors.

Sondra Smith, Lisa Beene, Sarah Rhomberg, and Ellen Muse were nominated, and Lisa Beene was selected for All-American and Sarah Rhomberg was selected to Who's Who in America Drill Teams.

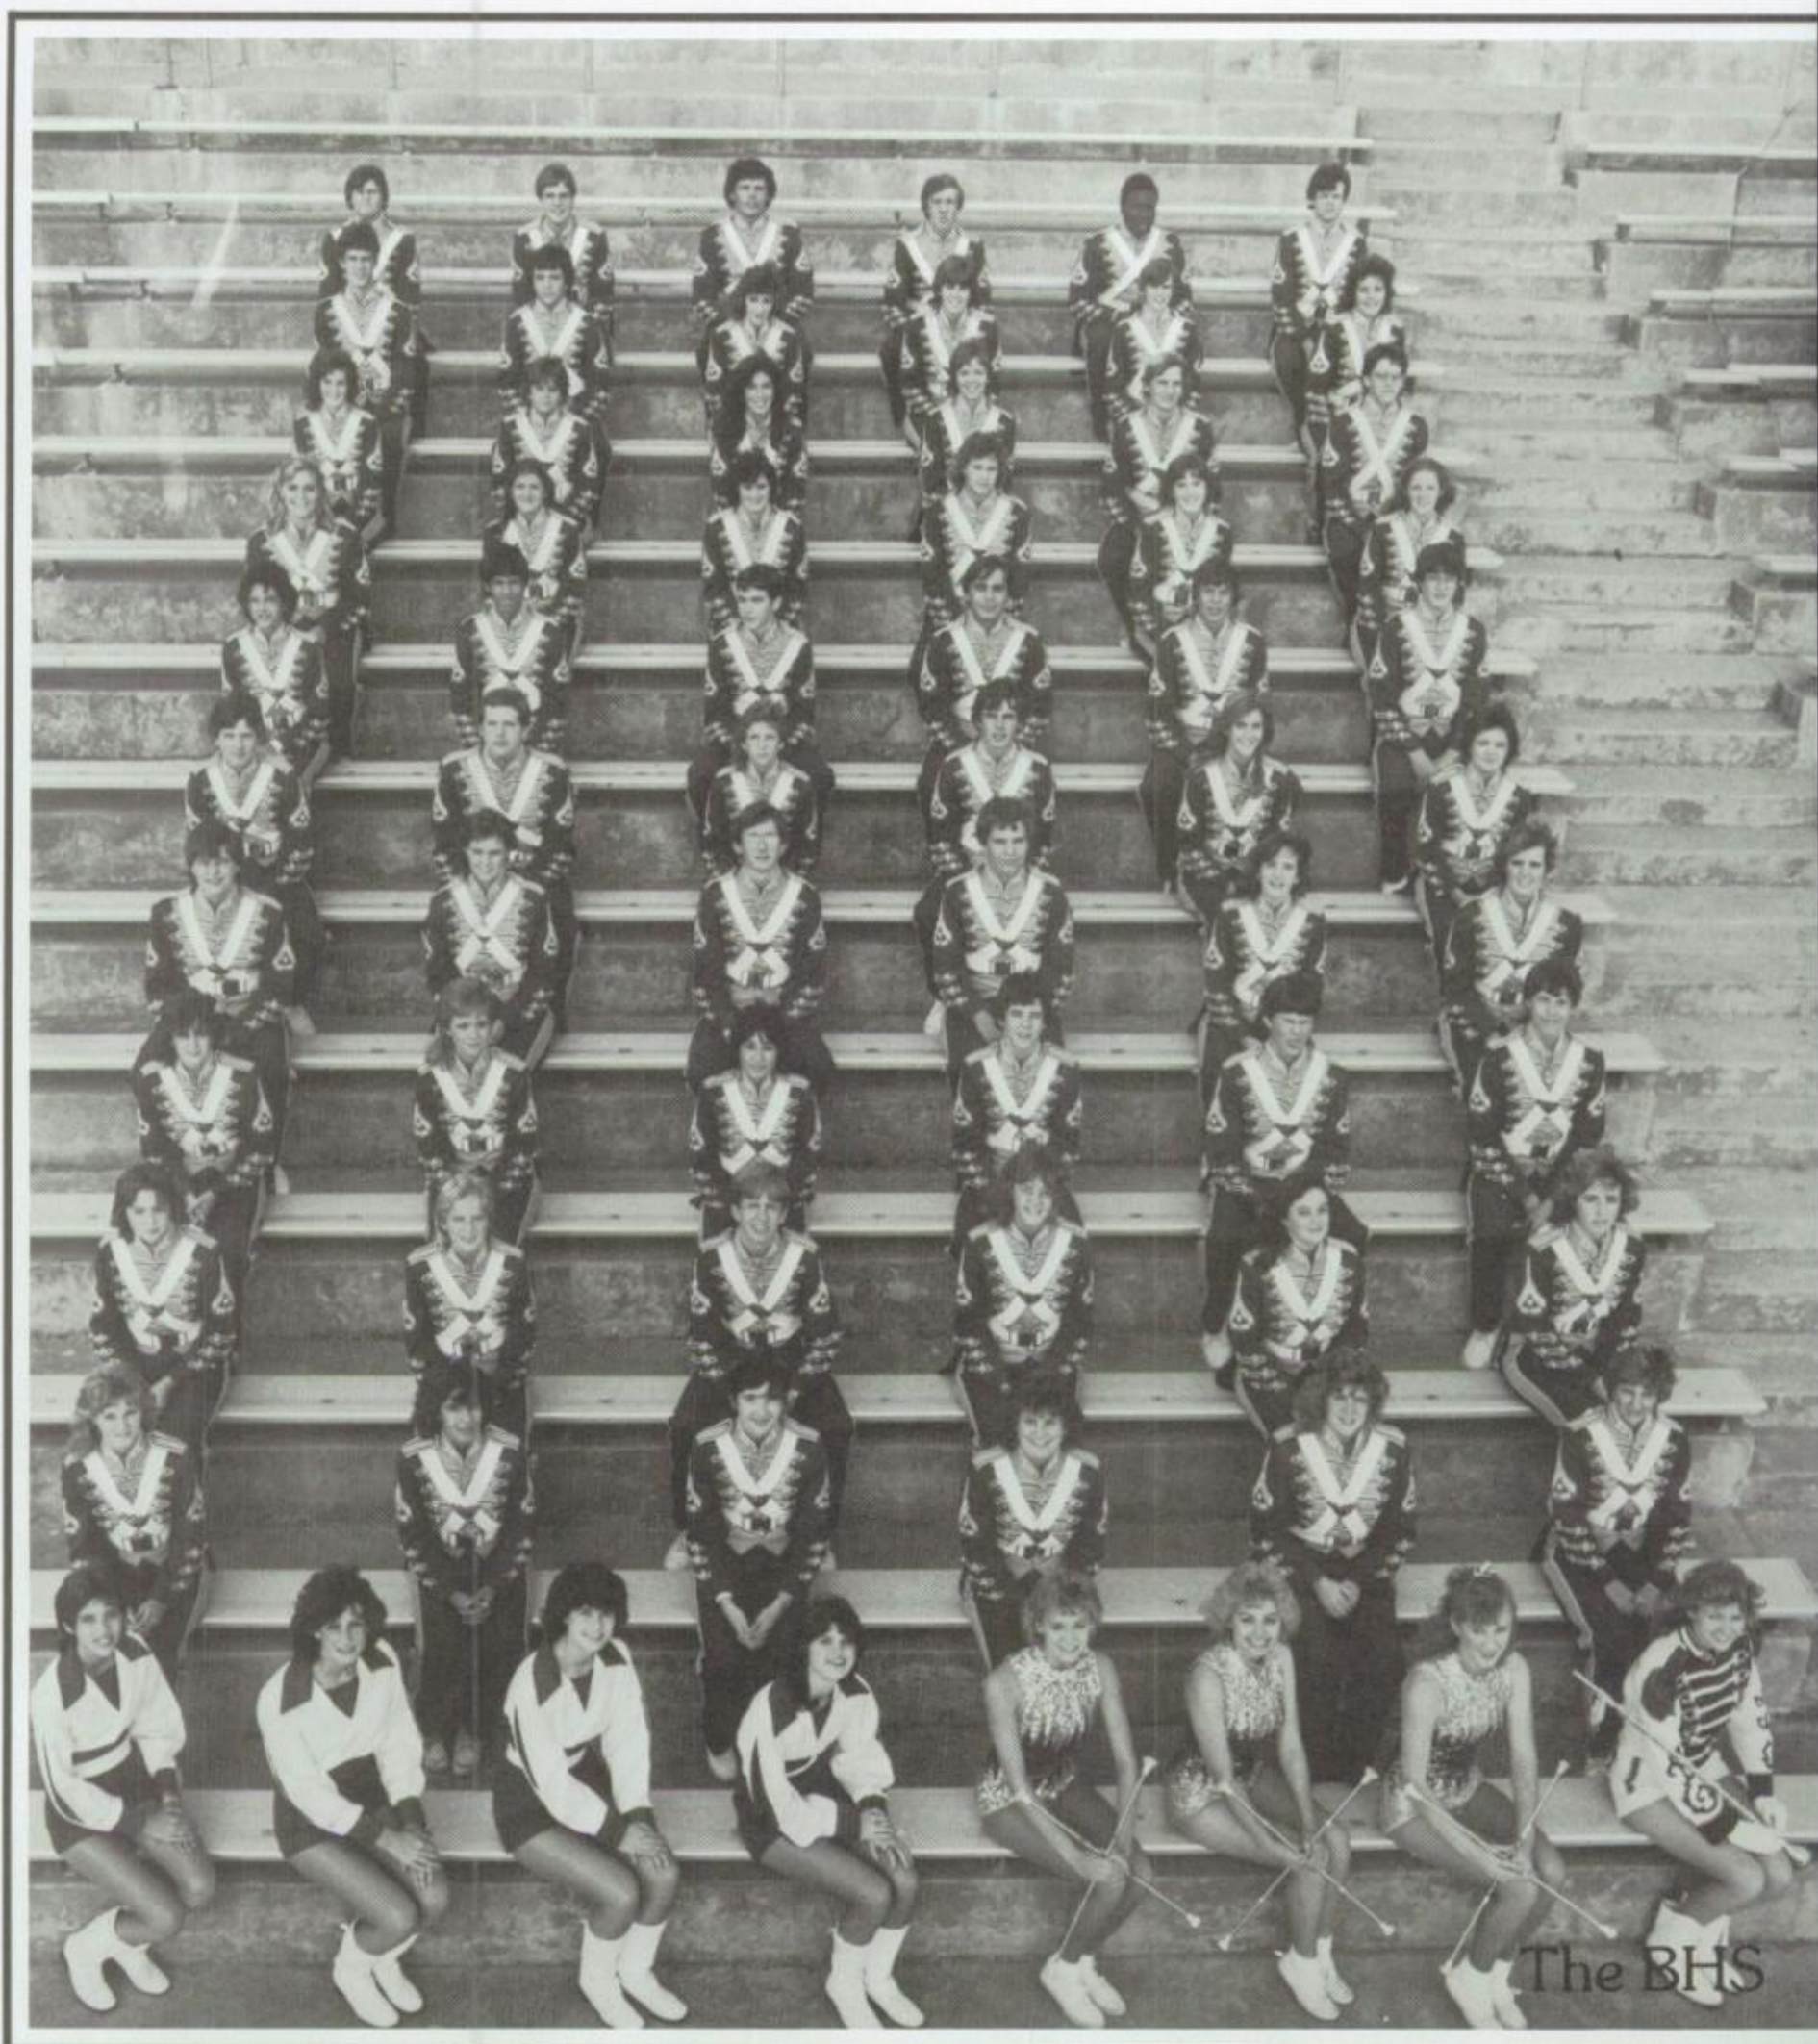

Sondra Smith waits patiently for the outcome of the game.

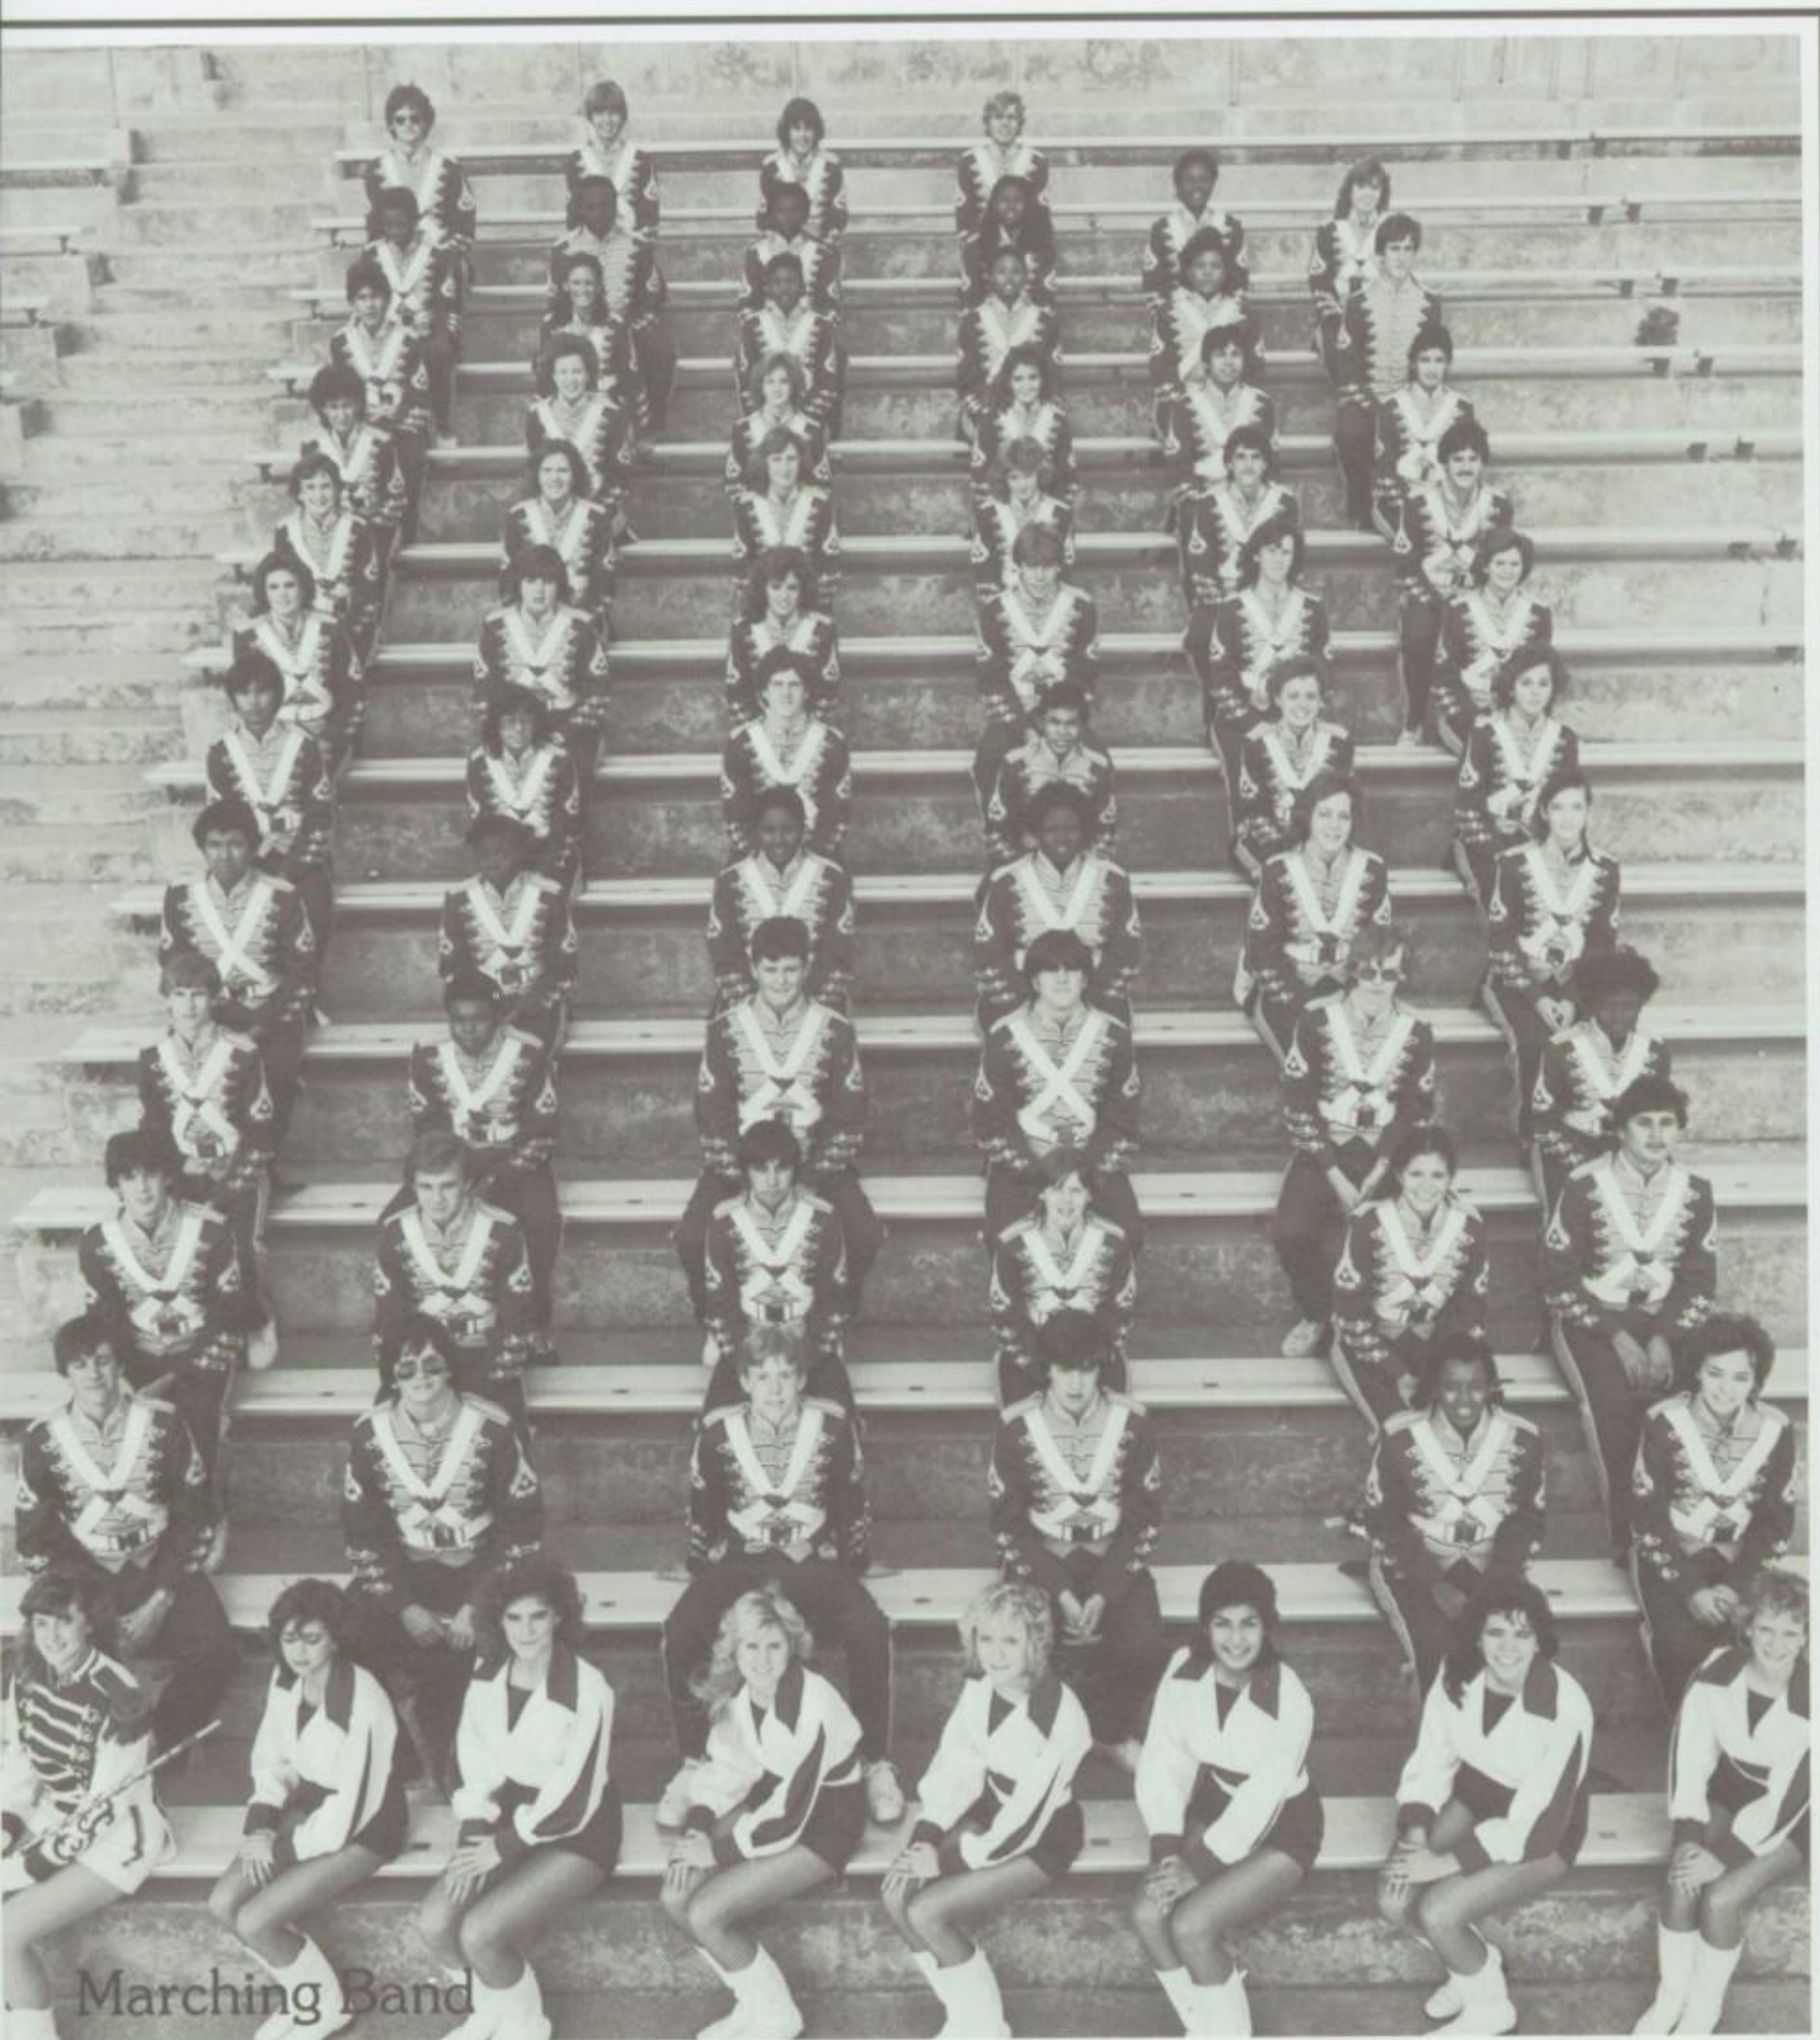

Kris Wagner remarks "I think we did real well on that routine . . ."

Non-Stop Agenda Keeps Members Involved

Since 1976 the Science Club has been able to provide a variety of activities for its members. During the year, the group performed service projects which include helping with Career Night, making gifts for Senior Citizens Day and hosting the Science Fair. The fund raisers to pay for the year end trip include selling M&M's, and valentines (paper hearts, carnations, and singing valentines). The club took tours at A&M and had guest speakers throughout the year. The Science Club is open to all, regardless of whether or not they are enrolled in a science class.

Pan Am Club strives for successful year.

The purpose of the Pan American Club is to promote the Spanish language and culture. Bryan High Pan American Club is a member of the Pan American Student Forum of Texas.

This year the club had two fund-raising projects: a candy sale and a calendar sale. This money is to be used for club expenses especially the trip to San Antonio for our state convention.

The club collected contributions for UNICEF. For Christmas the club went caroling at the Oak Hill Senior Citizens apartments and had a Christmas party there. We also took a pinata to the first graded bi-lingual class at Sul Ross.

The highlight to the year was the state convention in San Antonio. In the spring the club will participate in a Foreign language soccer Tournament and dinner.

The Bryan High Choir annually has a musical which was the **Wizard of Oz** performed on Friday and Saturday, February 10th, 11th, and 17th, 18th. The main parts were filled by the people who Mr. Hornebeck believed could handle the job. Dorothy was played by Jan Birkner and Lisa Whitlock. Scarecrow by Brad Beard and William Forest, and the Lion by Larry Sinclair and Doug Pryor.

For the 7 years that Mr. Hornebeck has been teaching the choir here he has always brought forth the best performances from everyone.

The Bryan High Choir works hard at perfecting their performances before they get onto stage. They have to be good to uphold the past reputations of the choir. This reputation could make anyone proud to be a choir member.

Bryan High Choir invited Jester Hairston, arranger, composer, and traveling choir leader and story teller, to direct the school choir for the third time on March 23 and 24.

Hairston has been spreading his special brand of good will through music over the world for nearly half a century. His career in music and the theatre began in the early 1930's. Hairston is a graduate of Tufts University, Boston, where he majored in music; then he spent two more years at the Juilliard Institute of music.

What do yearbook students do? They find out about Bryan High School. They become involved in virtually every aspect of student life. They discover the heart-beat of our school and then preserve it in pictures and words for our memory of these unforgettable years.

What does it take to make a yearbook?

It takes a great school full of students and teachers whose lives are important, whose efforts make a difference and whose story needs to be told. To tell this story it takes a special group of students who love their school enough to give their time, talents and energies to this purpose. I am very proud of the special commitments this staff has made to our school.

Charles Scherbel, Advisor

It takes hard work, a little craziness, and an unrelenting determination.

It takes irrepressible spirit coupled with a sense of purpose.

It takes ability and talent.

It takes quiet competence balanced against bounded imagination.

It takes realism and idealism.

It takes happiness and a good feeling about yourself and your work.

It takes a masterful performance under adverse conditions.

It takes the enthusiasm of a sophomore guided by the responsibility of a senior.

It takes cheerfulness and sensitivity.

It takes voluntary help at the 11th hour.

It takes creativity and self-confidence.

It takes a skilled effort pushed on by sheer energy.

In short it takes just the right combination of heart, body, and soul to be a yearbooker.

Paula Smotek is caught by surprise while painting a spirit boosting sign for the game on 50's dress-up day.

Being a cheerleader is no easy job. Hours of practice and dedication are required. All the effort and hard work bring rewards, however, and pay off when they encourage crowds to yell for their team. Cheerleaders get the spirits soaring at pep rallies and everyone is encouraged to be at the game to cheer the Vikings on to victory.

Missy McDonald and Jeanie Austin wave from their first-place float in the Christmas parade. Building pyramids is just one of the dangerous stunts cheerleaders do. Performing one at a pep rally proves successful once again. (far left)

Chess Club

The Chess Club has a one year charter Chess Club goal — to provide B.H.S. students with an excellent opportunity to learn how to play chess. Also, not only to participate in playing chess in the Bryan area, but to play other classes at the school.

The class is in its organizational phase during its first year. Students have been very enthusiastic about this opportunity. They have discovered materials in the library that have been of assistance to them, such as the rule book, books for beginners, and books on becoming a champion. The library staff has been most helpful in searching for other sources to be used by the students. Due to the ground work laid out by this year's leadership, it should be easier for future students to develop a first class Chess organization at B.H.S.

"We hope to become the model for competition for our district."

Faculty

Nine months of the year, five days of the week, seven and one-half hours of the day, we as students interact with some very special people — the faculty and staff of Bryan High School. The administration sees to it that our curricula gives us guidance and experience for what can be expected in the future. The custodial crew spends an endless amount of time keeping our campus clean. The teachers are the ones who take the time to come to school early to help us with anything we may be having trouble with. They stay after school to make sure that we understand our lessons. Many have given hours and hours of their personal time to sponsor the various clubs and activities here at Bryan High. This dedicated group of people is always here when we need them for any personal problems as they encourage us every step of the way. They influence our lives a great deal. Each teacher contributes to shaping our ideas, views, personalities and outlooks. With their devotion to making high school an unforgettable combination of education and fun-filled memories, each of these people have made Bryan High School a place to be proud of.

Mama said I'd lose my head
If it wasn't fastened on.
Today I guess it wasn't
'Cause while playing with my cousin
It fell off and rolled away
And now it's gone.

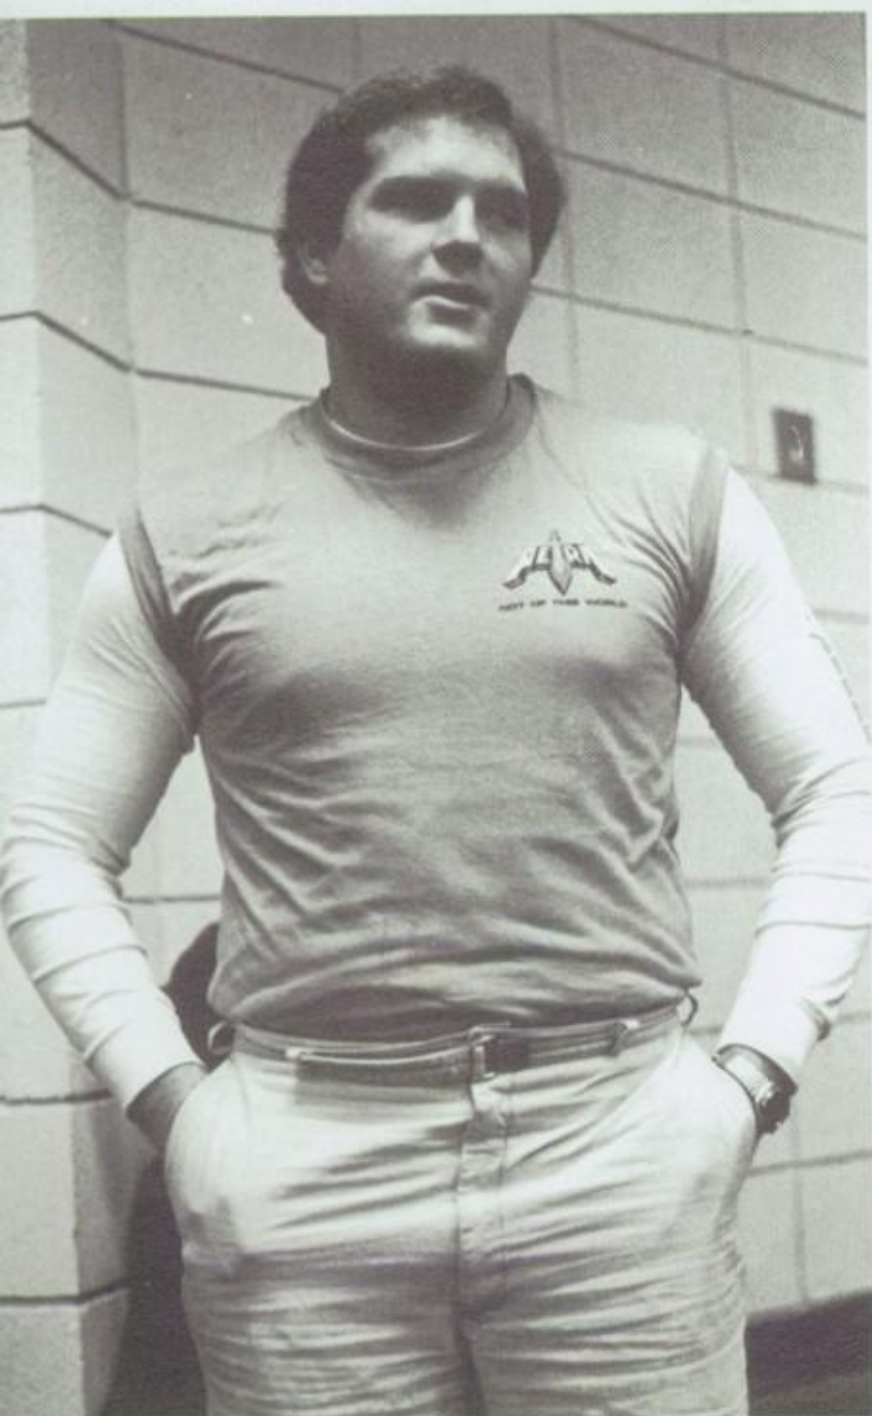

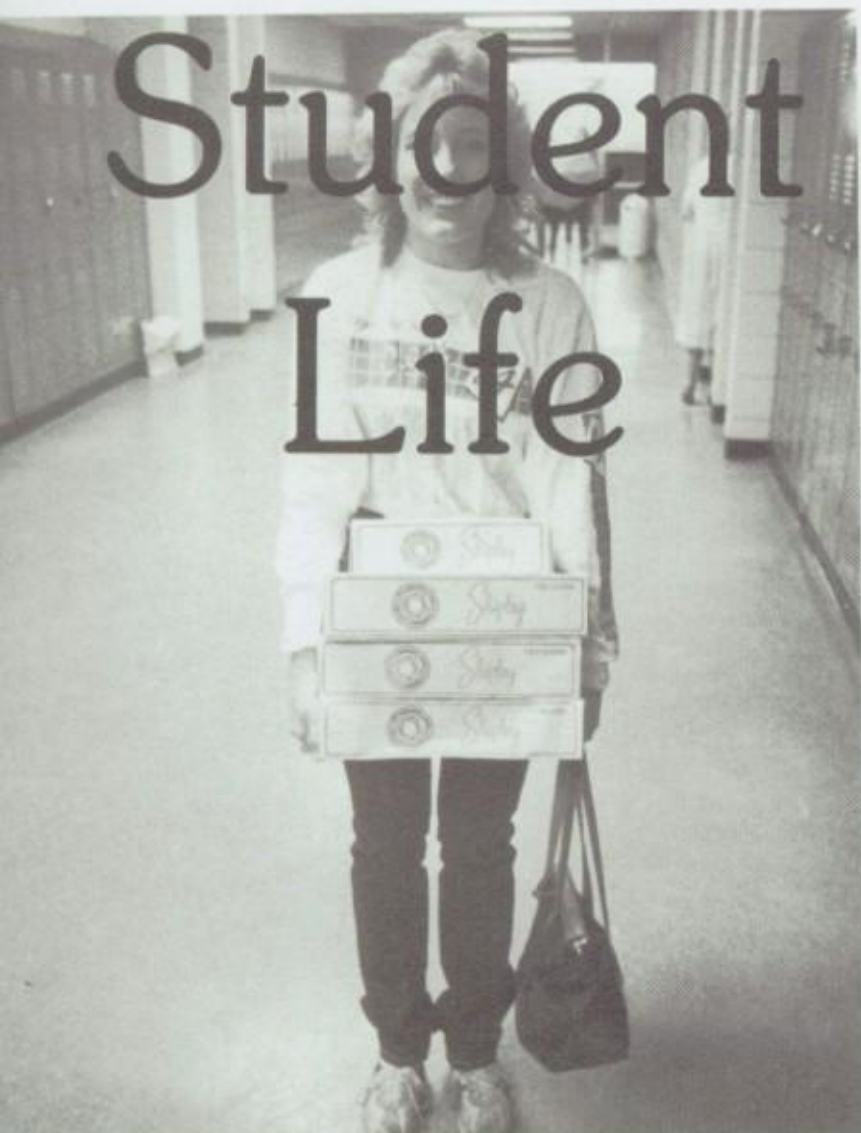

And I can't look for it
'Cause my eyes are in it,
And I can't call to it
'Cause my mouth is on it
(Couldn't hear me anyway
'Cause my ears are on it),
Can't even think about it
'Cause my brain is in it.
So I guess I'll sit down
On this rock
And rest for just a minute . . .

Student Life

The Star-Spangled Banner was written in 1814 by Francis Scott Key during the war of 1812. Although the song was very popular, it was not until 1931 that Congress officially approved the song as the national anthem.

Patriotism, the love of a country, is a word we are all familiar with, but when we sing the Star-Spangled Banner or say the pledge to the flag, we may think of it only as a routine thing. We may disregard the lives that were lost to give us this freedom we have.

“Greater love hath no man than this, that he lay down his life for his friends, . . .”

John the Apostle.

1983-84 was a year that cost lives of Americans in defense of the ideals of freedom. These pages are dedicated to the honor and the sacrifice of these brave men.

Pep Rallies: A Spiritual Time

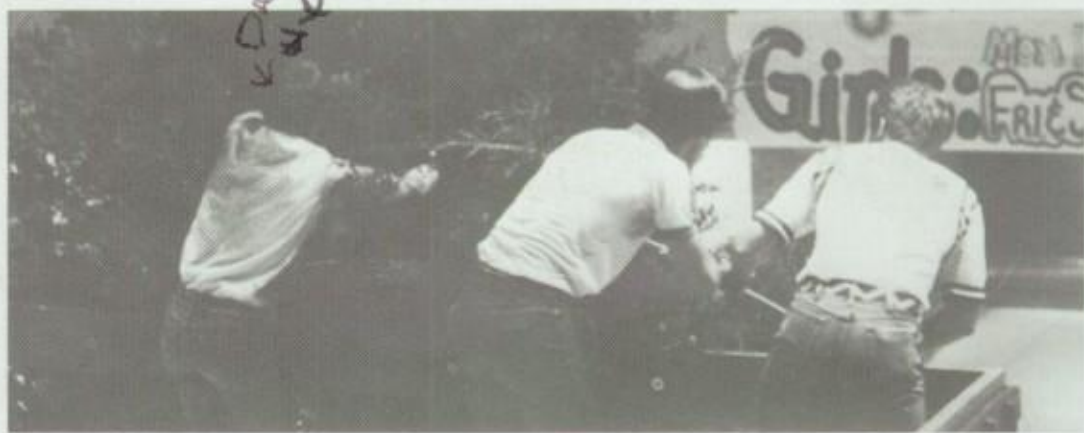

Dress up days and spirit signs give the students (and teachers!) at Bryan High a chance to show their spirit and pride in their school. Nothing, however, represents the spirit of the school more than a pep rally. Pep rallies, at the heart of spirit, give everyone an opportunity to support their school. Cheerleaders lead in school yells, football players get recognized for outstanding abilities, organizations perform dances or skits, contests are sponsored by the cheerleaders, and individuals get recognized for their service and hard work in the means of spirit. Classes compete for the spirit stick and the fight song and Alma Mater are sung together enthusiastically. Pep rallies are the time to get fired up and show your team you're behind them all the way!

The Parking Lot: A Busy Scene

The parking lot at Bryan High is certainly a very busy place. People come and go from school daily, with a mad rush at lunch and after school. Often the grounds are abused with illegal parkers and littered with trash. Other times, however, it is a place of hard work, such as when the band practices for hours during football season, and also plenty of good times. The parking lot is an important part of our school, and should not be forgotten.

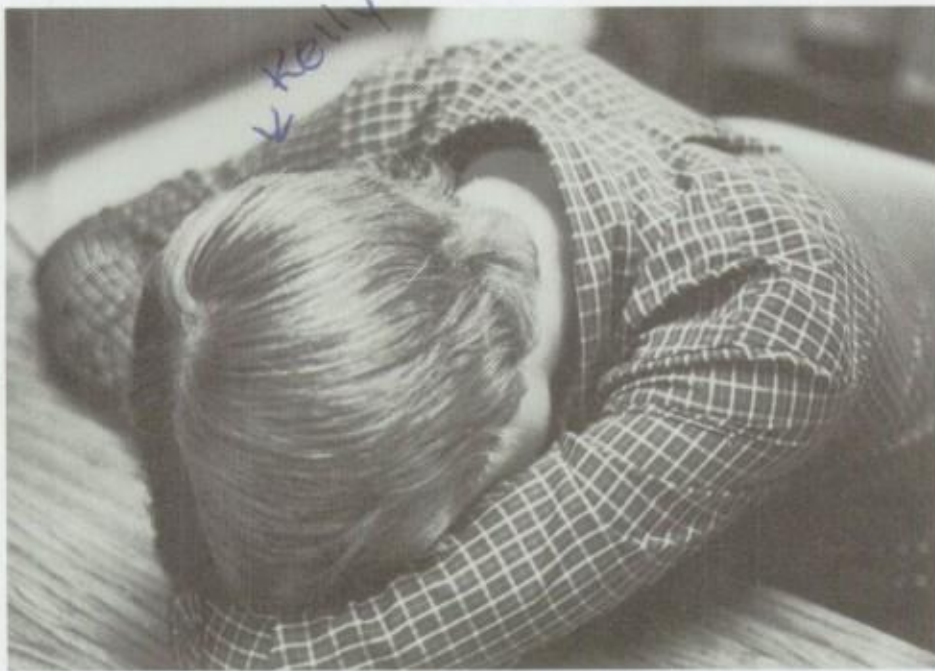

Cynthia Modique demonstrates her extraordinary strength.

To the Other...

What does it mean to be a cheerleader?

"Cheerleaders are not out there to be looked at as status figures. They are out there to promote spirit for their athletic teams. Cheerleading is a time for spirit and excitement. However, it can be exhausting and painful."

Leslie McCool

"Tradition is important, it brings the school together, it brings the cheerleaders together."

"Bryan High has always been spirited."

"Cheerleading stays with you forever."

"It grows on you."

"I do cheers in the shower."

"Last year's cheerleaders surprised us, they didn't lose it."

"We get spirit from each other."

"If one is down, the rest get'em back up."

11th Annual Science and Engineering Fair 1984

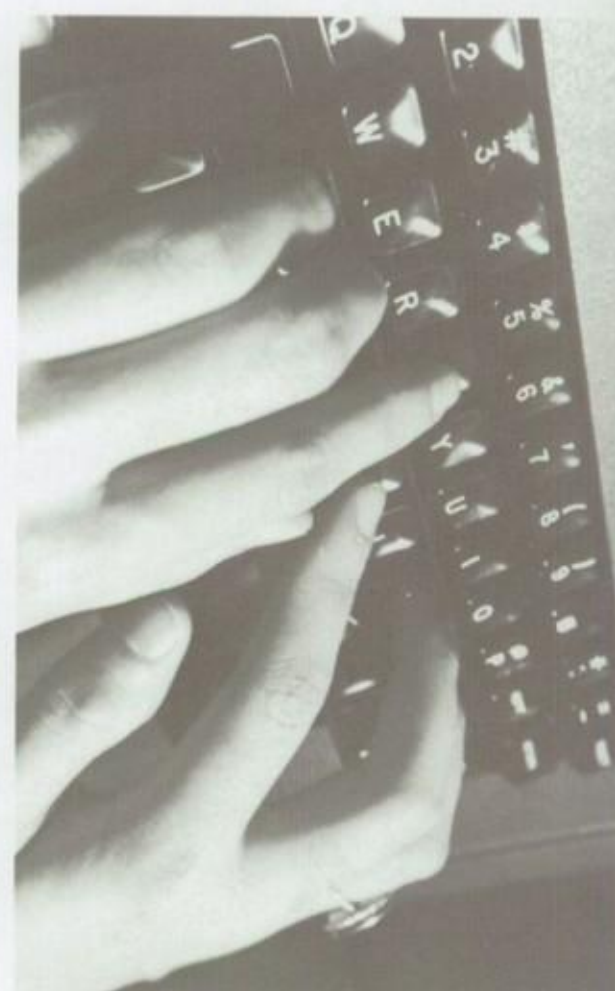

Best of Fair winner, Ted Kim, shows his project entitled "What Is the Safest Way for a Helicopter to Approach a Moving Ship on Open Sea?"

Shari Youngblood won 1st place for her project in the new division of Computer and Math.

Shari manipulated the printer to have it print in dots corresponding to the actual words.

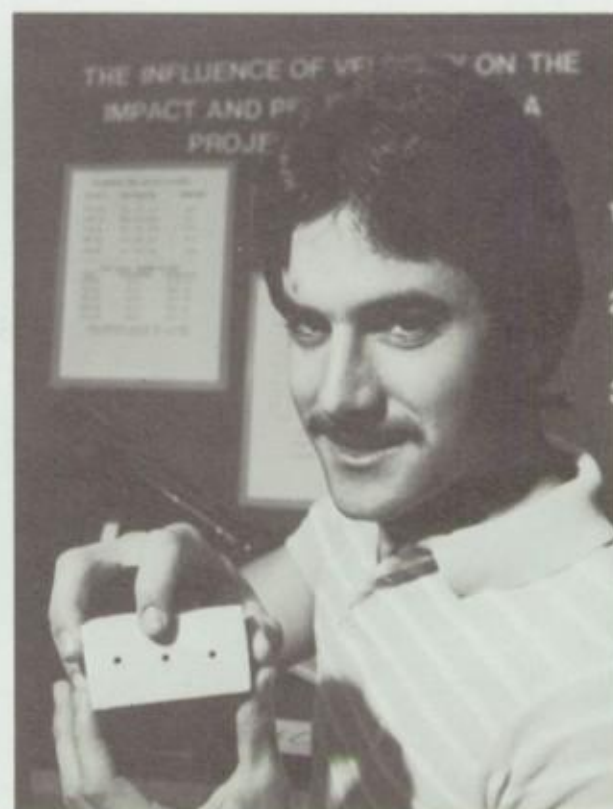

This Braille card shows each letter in the raised Braille form.

Murtney Newton's first place project "Does silicon alter the cell wall elastic properties of Loblolly Pine?"

Third place winner Keith Cole proudly shows his computer project.

John Hamilton won third place with his project entitled "The Influence of Velocity on Impact and Penetration of Projectile."

The Science Fair originated as an extension of the scientific knowledge learned in the classroom. It expresses the individual student's scientific abilities. It is a way in which a student can grow as a scientist.

Students select their topics for their projects early in the year and throughout a four to five month period, they research their area of interest. Many of them ask help from professors at Texas A&M and other community people.

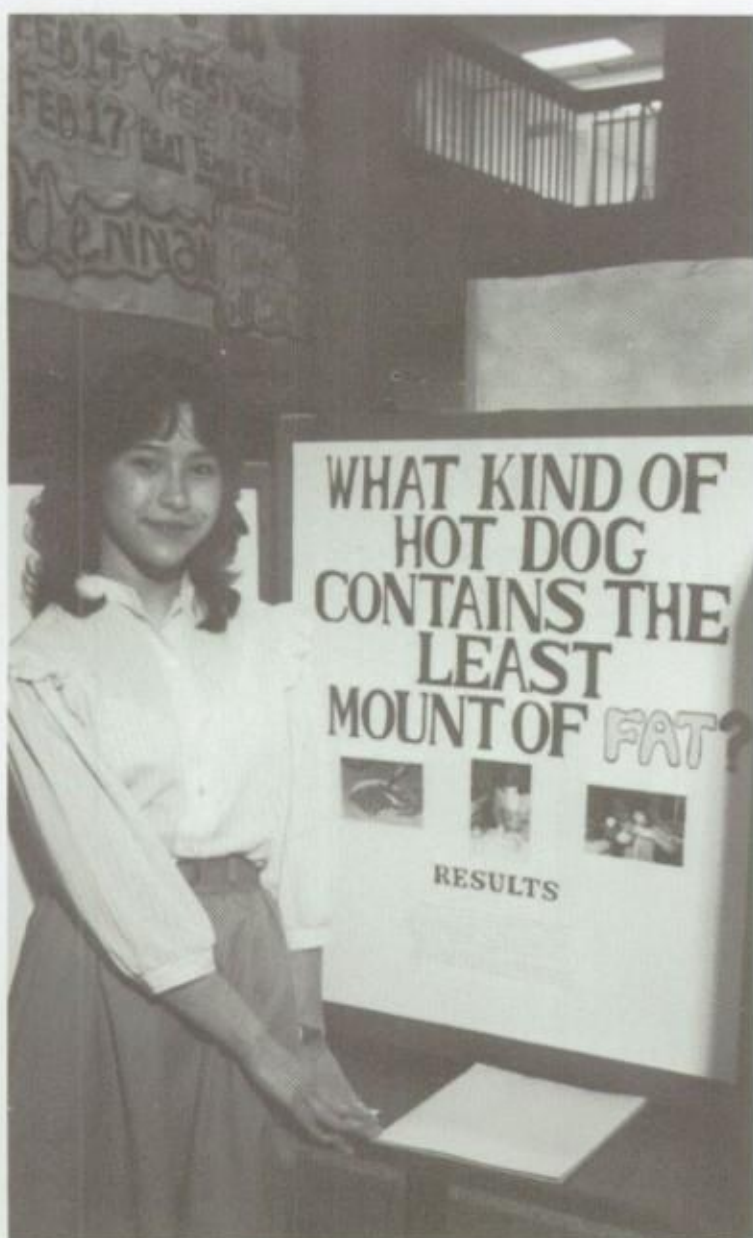

As a student who participates, he or she expresses the knowledge of the scientific processes — defining a problem, hypothesizing, researching, experimenting, collecting data, calculating results, and drawing conclusions.

Winners from the Bryan High Science Fair advance to the regional competition and possibly to the International Fair.

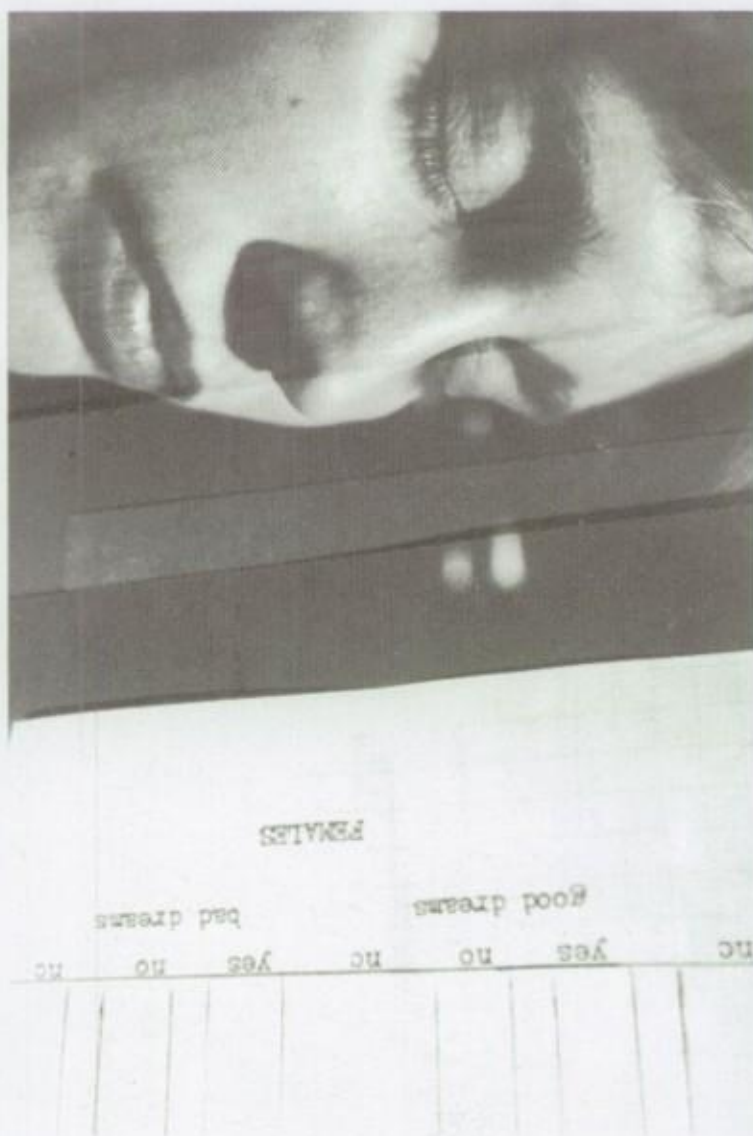

Everyone anxiously awaits the results as a reward for months of hard work.

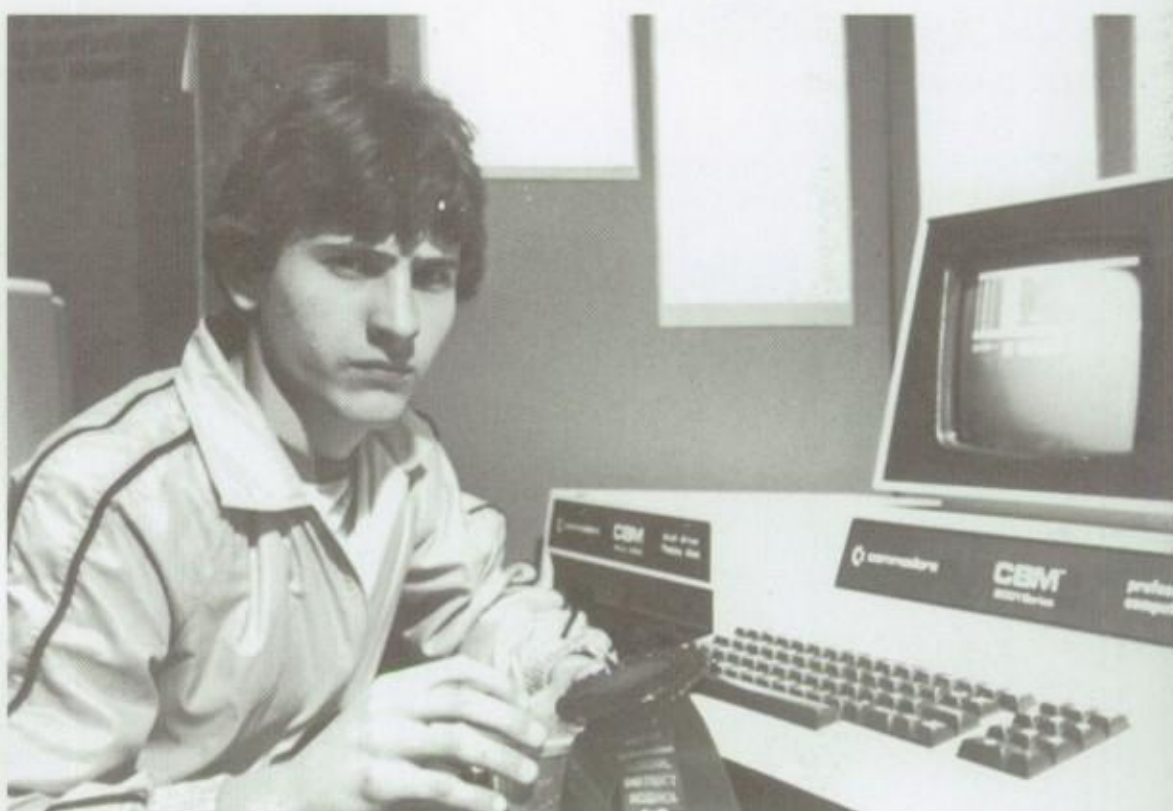

Senior Christine Kim stands with her project.

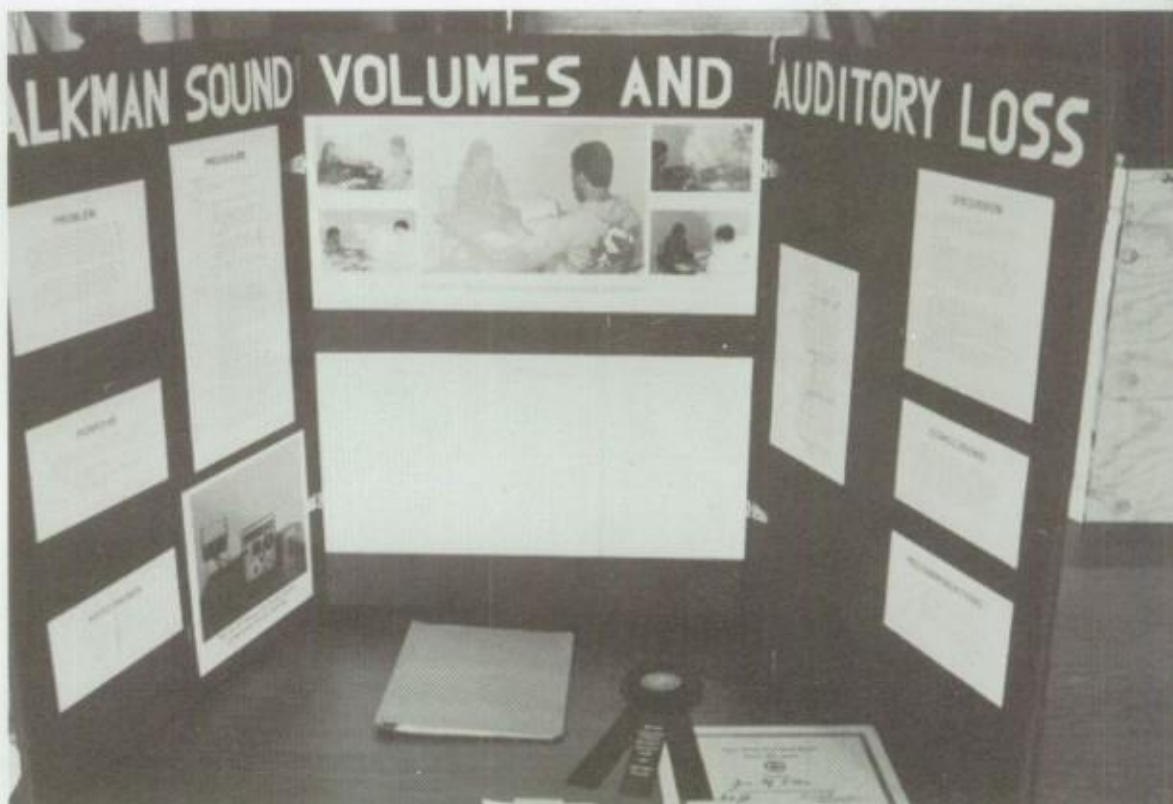

Karen Goodgame probed the question of "What do young Americans remember about their dreams?"

The Science Fair has two divisions — the Junior Division and the Senior Division. The Junior Division includes grades seven and eight and has seven categories. The Senior Division is for grades nine through twelve and has eleven categories. They are Behavioral and Social Sciences, Biochemistry, Chemistry, Physics, Botany, Zoology, Earth and Space Sciences, Microbiology, Engineering, Medicine and Health, and Computer and Mathematics. Computers were added to the list just this year to keep up with the rapidly advancing technology.

Each student works hard to receive one of the many awards. All first place winners receive a marble paperweight, ribbon, and a ball point pen with an LCD watch. Each second and third place winner is awarded with a ribbon. Two special awards are also given each year. A plaque commemorating Joel Alan Alderink and a \$25.00 check is presented to the best project dealing with birth defects, and the Beta Beta Chapter of Phi Lambda Upsilon present awards to two chemistry projects.

Donald Dylla received a 2nd place award for his computer project.

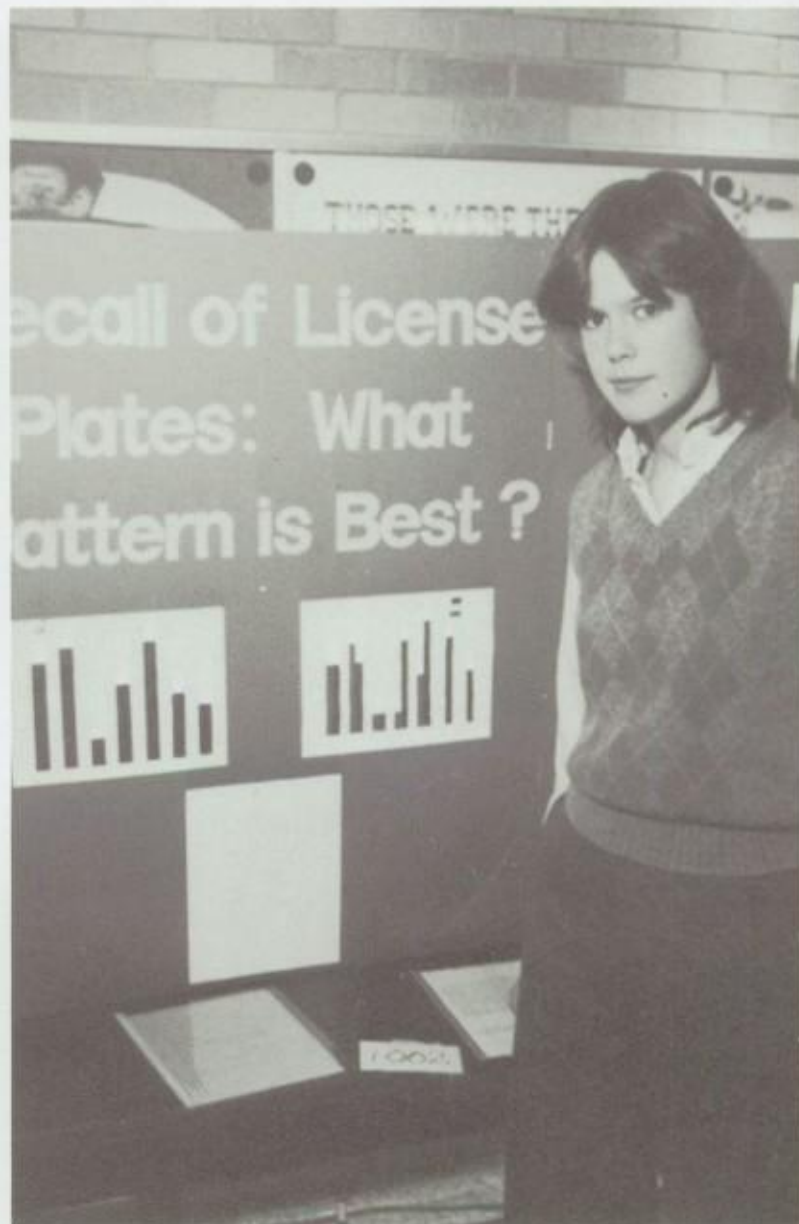

Jon Ellis won 2nd place for his project in the Medicine and Health Category.

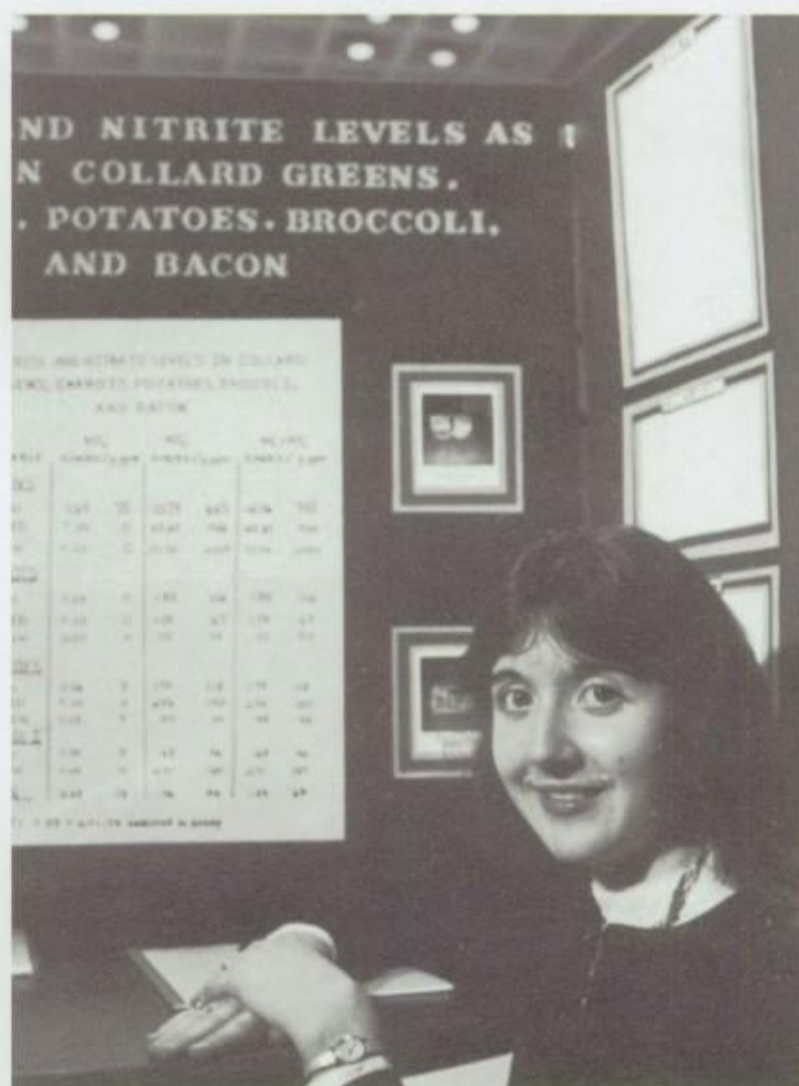

Ninth grader, Chris Alexander, had a very unique project on selecting an airplane propeller.

Erik Molvar stands here with his 2nd place project dealing with fish.

Ninth grader, Melanie Benjamin, is shown here with her project which was entered in the Behavior Sciences category.

Kim Shrabarek won 2nd place for her biochemistry project.

GRADUATION 1984

Senior Thoughts on Graduation

High School has been fun for me, and I've really enjoyed it. Athletics has been the major thing. In athletics you learn a lot about life; you've got to be dedicated if you really want to do something. You've got to set some goals and go from there. Athletics is real hard; you always want to quit and give up, but I guess I've persevered. When I get to college and I want to quit, I can look back, and it'll help me. FCA has been a big influence too.

I can't wait to graduate. This year has gone by like the snap of a finger. I'm looking forward to college, yet I'm scared about it too. The closer I get to graduation the scarier it gets, and the less I look forward to it.

Charles McMath

My goals in high school have been to make the best grades possible and to make as many friends as possible. High school has been a lot of good memories and a chance to meet people that you'll keep in mind for the rest of your life. I've learned to appreciate friends more. One scary thing about being a senior is you're afraid you will lose some of them and that you might not see them anymore.

Now I think more of the future. When I was a sophomore I didn't plan anything about going to school, but now I think about life in general. I have a lot of things to learn, but I've learned too that the door is open and there are a lot of opportunities.

Donna Urso

I feel that I have obtained enough knowledge in high school to at least serve as a basis for my career choice. I realize there are many things I don't know and that I will experience. It will be like entering a whole new world with many strange surroundings and new happenings and people. It will mean coming into closer contact and facing the realization of that world.

My advice to underclassmen is to think of high school as a challenge, and tackle it the best way possible. It's a great feeling to be a senior. Always strive for the best in life; be ambitious. It's a big world out there and in some way or another your high school years will pay off.

Stephanie Bisor

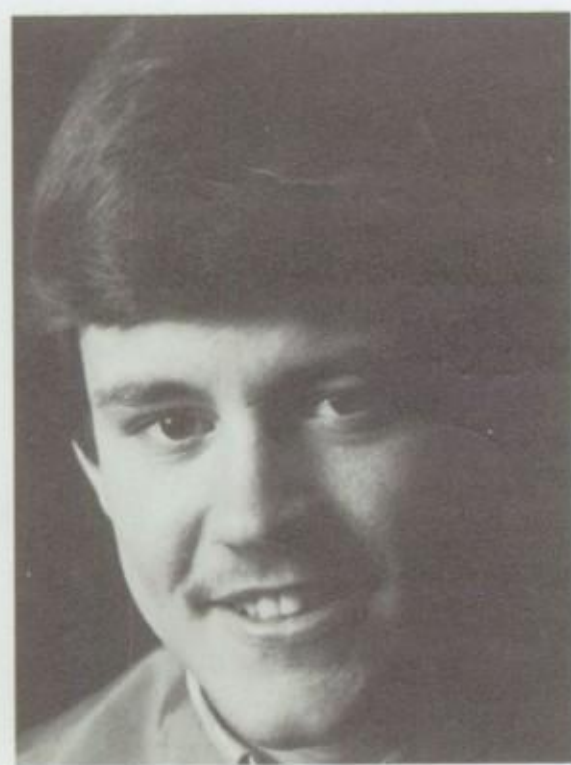

Brandi's Girl were had some really great times this year. many more to come I hope. You're one crazy gal w/ a person-ality that'll

My senior year at B.H.S. wasn't really what I expected. Your senior year is supposed to be a big blow off because you're the big senior on campus. But it's not that way at all. Sure sometimes we have things a little easier but not enough time to stop and play around much.

My senior year has really been preparing me for college. You have to learn to want to study and to do it a lot longer to make good grades. Overall it's been a lot of fun and hard work.

I'm glad to say that even though the year was harder than I expected, it sure seems to go by faster.

Bryan Jones

High school is all about meeting and learning to get along with different people, studying and trying to make the best grades you can. My friends have played an important part in my life in the past three years, and they have always been there when I've had problems.

GSL has been a lot of fun — it kind of filled my life up. It makes me feel good about myself that I could do something for somebody else.

One of my favorite teachers is Mrs. Morris. She's helped me grow up a little more. She sets us straight every now and then, and I just respect her a great deal for that.

I'm happy but kind of scared about graduating. I'm going to a different college than the rest of my friends, so I'm not going to see them that much anymore. But then I'll meet a lot of new people so that will be kind of fun.

Cissy Hargett

I look at graduation in two ways: a time of sadness, to be separated from your friends, teachers and peers, and a time of new beginnings, the start of a wonderful future. I will really miss my friends after the last day. At the same time, I will remember that the memories I have can never be taken away from me.

I will want to remember my teachers also . . . the ones who took time to be a friend . . . those who were there to lend a helping hand, not only in school affairs, but in personal affairs.

Three things to remember are your school, your responsibilities as an adult, and your last day.
